Terms of Use

Proprietary Statement This manual contains proprietary information of Zebra Technologies Corporation and its subsidiaries ("Zebra Technologies"). It is intended solely for the information and use of parties operating and maintaining the equipment described herein. Such proprietary information may not be used, reproduced, or disclosed to any other parties for any other purpose without the express, written permission of Zebra Technologies.

Product Improvements Continuous improvement of products is a policy of Zebra Technologies. All specifications and designs are subject to change without notice.

Liability Disclaimer Zebra Technologies takes steps to ensure that its published Engineering specifications and manuals are correct; however, errors do occur. Zebra Technologies reserves the right to correct any such errors and disclaims liability resulting therefrom.

Limitation of Liability In no event shall Zebra Technologies or anyone else involved in the creation, production, or delivery of the accompanying product (including hardware and software) be liable for any damages whatsoever (including, without limitation, consequential damages including loss of business profits, business interruption, or loss of business information) arising out of the use of, the results of use of, or inability to use such product, even if Zebra Technologies has been advised of the possibility of such damages. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

CardStudio™ 2.0 User Guide

Introduction

CardStudio™ 2.0 License Manager

Introduction

CardStudio™ 2.0 is a full-feature card design and printing software application with complete capabilities for card design, data management and card production. CardStudio is provided in four **Editions**: Classic, Standard, Enterpris and Professional. All four editions integrate the required features for ID Card design and production.

Classic: A single combination application, that brings simplicity to basic card design and printing

Standard: Offers two easy to use specialty applications: DesignStudio for card design and PrintStudio for data management and card production. Offers basic encoding (MSR) and data integration (import data from an Excel or CSV file)

Enterprise: A complete edition similar to the Standard edition, that can connect to multiple external databases. The highly intuitive user interface makes it easy for virtually anyone with any level of experience to create the most complex cards.

Professional: Includes all the features of CardStudio Enterprise, the perfect edition for card design, card production & smart card encoding. With a SmartCard Editor and MIFARE/DESFire contactless smartcard encoding support.

The Zebra CardStudio™ 2.0 Software uses license activation technology. A License key is needed to activate the different CardStudio 2.0 editions. The required License Keys are available and generated using a the CardStudio 2.0 License Manager: <https://cardstudio.zebra.com>

Zebra Distributors and Resellers offer activation links connected to the specific CardStudio Edition you need. Use the activation link and login to the License manager with your Zebra ID credentials and receive the License Key.

The License Manager also offers the chance for you to login to the License Manager with your Zebra ID, check the available products and order/request the needed license key using the License Manager.

The CardStudio™ 2.0 License Manager User Guide helps you to navigate the License Manager and explains how to order, activate and manage License keys.

CardStudio™ 2.0 License Manager Activate License Keys

Register, login and activate license keys using an activation link

CardStudio™ 2.0 License Manager

Activate License Key with Activation Link

What is an Activation Link?

A CardStudio™ 2.0 activation link is a way to distribute a License Key for the CardStudio 2.0 Software using a CardStudio License Manager Account.

A csv file with a list of activation links is generated in the License Manager for every edition of CardStudio 2.0. The CSV file is generated at Zebra Reseller level by a dedicated Zebra Administrator. To keep a clear overview a couple of resellers for different purposes/locations were created: Zebra Credits, Zebra EMEA, Zebra LAT, Zebra NA, Zebra Quickcard Bundle, Zebra Support, Zebra Upgrade, Zebra X-Grade, ZebraReseller, ZebraTest.

These activation links are used by Zebra to sell license keys. The activation links are offered through different channels by Zebra.

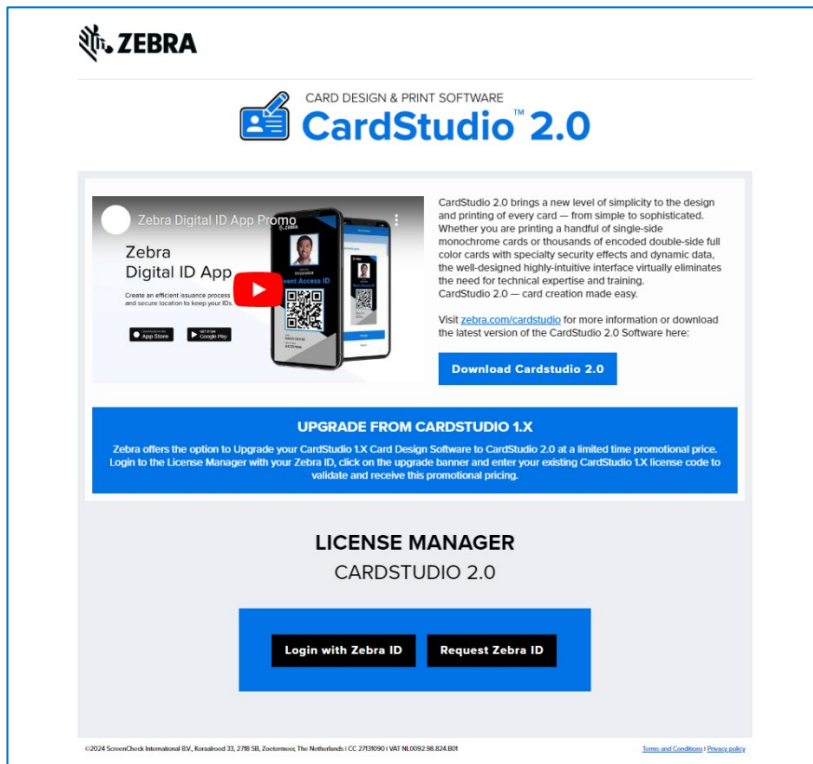

Important to know about an Activation Link as an Administrator

As a Zebra Administrator, you login at Distributor level so you are able view, manage and navigate to all the Resellers, Customers and their License Keys.

- An activation link can only be used once to login with and receive a license key from.
- An activation link is not a license key but a way to distribute the license key into a customers' account.
- The activation link before it is used is connected to 1 license key of a certain product, until it is used to login (Zebra Credentials) with it is not connected to a certain customer.
- An activation link can only be used with Zebra Credentials that have customer rights. A Zebra License Manager Administrator logs in on Distributor level and cannot activate an activation link with his login credentials.
- All the license keys activated with the activation link and your customer Zebra credentials can be found in the license manager account of the person who logged in with their credentials.
- If the pop-up with the license key is clicked away after login with an activation link, you can always find your key by selecting the "[Key](#)" Icon in your License Manager Account.
- Activation links are generated at Zebra Reseller Level using the repository.

How to activate a CardStudio™ 2.0 license key

Type in the Software Activation Link in your browser provided by your Zebra Reseller. The activation link will look like this example: cardstudio.zebra.com/activate/ZEBRAXXXXXX

Login using the Activation Link

The unique Software Activation Link directs you to the CardStudio 2.0 License Manager.

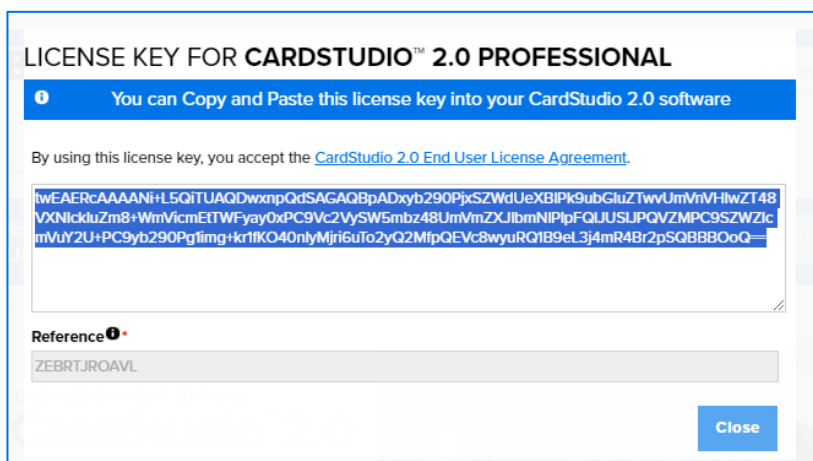

If prompted, log in with your Zebra Username and Password. If you don't have a Zebra Account yet, you can register for one.

If you need to create a Zebra ID, click the registration button to set up your credentials. After registration, use the activation link to obtain your CardStudio™ 2.0 STANDARD license key.

Register for a Zebra ID

Register for a Zebra iD in three steps:

1. Enter User Email Address
2. Verify User Email Address
3. Enter User Information

Receiving your Software License Key

After using the Activation Link to log into the License Manager your Software License Key will appear in a pop-up, ready for you to copy and paste.

License keys						
Order id	Id	Modified	Product	License type	Reference / Remark	Status
23	2914	07/25/2018	CardStudio™ 2.0 PROFESSIONAL	Online	ZEBRTJROAVL /	Activated

Note

If the pop-up is clicked away, you can always find your key by selecting the "Key" Icon in your License Manager Account.

Registration of the Software Edition

When **DesignStudio** or **PrintStudio** starts for the first time, a registration window will pop-up, this is where the license key can be entered, and the CardStudio Software activated.

Register DesignStudio

Online registration

Enter or paste your license key exactly as you received it:

License key: NlbWfUyYwDlci0xMzwvVXNlckluZm8
+PFJlZmVyZW5jZT5aRUJSQUNQSUNESjwvUmVmZXJlbmNlPjwvc
m9vdD4Ww8cJsn2G4R9GeMoDyl/
Uh2gfyOPZ3G7u2tUjtTGzEf0N2GQnoL0PyQvtZ4KXHDM=

☐ Use proxy

Purchase Back Register

Example of the CardStudio online registration license key window with License Key entered.

Register DesignStudio

Evaluation version

This is a 14-day evaluation version. Once the evaluation period has expired, you must purchase a license to keep using the software.

Day 1 of 14

You have 13 unique days of free evaluation left. Click the Purchase button to obtain a license key.

Purchase Activate OK

Example of a successful online registration of CardStudio.

Online Registration

You will be requested to enter a license key. The license key will be provided by our License Manager. The license key must be entered (copy-paste), when the key is valid, the software will start. The next time the software will not require the license key to be entered.

Test keys can have a time restriction and may expire on a given date. (View the License Manager User Guide for more information on License Keys).

A. Check the "Use Proxy" box and enter the information needed to connect through a Proxy server in your network.

☒ Use proxy

Proxy url: proxy-server-url.com

Username: user Password: pass Domain: domain

Successful Registration

When you copy-paste the correct key you will see that the registration is successful. In this case it is a test key that shows the evaluation time. Click the "Ok" button to start working with CardStudio.

CardStudio™ 2.0 License Manager Administrator Interface

Your License Manager Account

CardStudio™ 2.0 License Manager

Zebra Distributor Interface

Home

The Zebra Distributor Landing page allows you to navigate to different types of Reseller groups created for Zebra for ordering activation links, download the CardStudio 2.0 software and manage the customers and customer license keys.

A. Main menu

- Home
- Resellers
- Customers
- Products
- My account

B. Support information & logout

C. Account information for the person logged in

D. Depending on the administrator rights you can navigate between different levels and customers. Just type in the Reseller of Customer name you would like to navigate to.

E. Download button for the CardStudio 2.0 Software

Resellers

The different types of Resellers in the License Manager are mostly used by specific Zebra Administrators that are responsible for ordering and downloading Activation Links for the different types of distributions channels Zebra offers to sell CardStudio 2.0.

Resellers available to order and download Activation links from:

Zebra Credits, Zebra EMEA, Zebra LAT, Zebra NA, Zebra Quickcard Bundle, Zebra Support, Zebra Upgrade, Zebra X-Grade, ZebraReseller, ZebraTest.

Use the D. search field to navigate to the different Reseller types.

Customers

Visit the customers page to add a new customer, to get an overview of all your customers or to see all the customer license keys.

List customers

The screenshot shows the top navigation bar with links: Home, Resellers, Customers, Products, My account, and a Logout button. The 'Customers' menu is open, showing options: Add new, List customers, and Customer license keys. On the right, user information is displayed: Abdul Aziz Muhammad Nizam (AM5724), Zebra Distributor, Distributor of Auto-Europe, and Last login was on 12/08/2023 05:25. Below the navigation bar, there is a dropdown menu showing 'Zebra Distributor'.

Step 4. Transfer, disconnect or Revoke

The pop-up information window will show the License Key Information and give the Administrator the option to "Transfer", "Disconnect" or "Revoke" the License Key.

Revoke the License Key

A. First enter the revoke reason in this field and then click on the red "Revoke license key" button. A pop-up will show up asking if you are sure you want to revoke the license key. After confirming the license is revoked, the key cannot be used anymore.

Transfer the License Key

- A. If a license key for a company is connected to a specific user, it is possible to transfer the license key to another user within that company. They first must register for a license key account to be able to receive the key. Look up the new user and click on the transfer button. Make sure the new user is authorized to use the license key instead of the current user.

Transfer this license key to another customer

License keys

Go to “[License Keys](#)” to review all License keys you ordered. You can filter and search for a specific key or revisit a license key when you would like to use the key again after disconnecting the key from a PC.

The screenshot shows the Zebra My Account page. At the top, there's a navigation bar with 'Home', 'Products', and 'My account'. The 'My account' section is active, showing the user's name 'Mark Murphy (MMurphy)', company 'Zebra', and a note 'Customer of ZebraTest'. Below this, there's a search bar with 'Zebra' entered. The main content area is titled 'MY ACCOUNT' and has a sidebar with 'My details', 'Company details', and 'License keys'. The 'License keys' section is expanded, showing a table of license keys. The table has columns for Order id, Id, Modified, Product, License type, Reference / Remark, and Status. A single row is visible with Order id 23, Id 2914, Modified 07/25/2018, Product CardStudio™ 2.0 PROFESSIONAL, License type online, Reference ZEBRTJROAVL /, and Status Activated. Below the table, there are navigation buttons: 'Previous', 'Page 1 of 1, 1 records total', and 'Next'. There are also icons for 'A', 'B', 'C', and 'D'.

- E. The overview of License Keys can be filtered by Order Id, Date, Product, License type, Reference and Status. It is possible to export the License key data to a CSV file by clicking on the Excel icon  and
- F. The License Keys can have different type of status. Below the different type of statuses and what they mean.
- **Requested**, when your key is requested and waiting for approval by the License Manager Administrator.
 - **Available**, when your key is approved and available to be activated. Activate the key by clicking on the “C” key icon. Giving the key a reference and copy and pasting it in the CardStudio 2.0 Software.
 - **Cancelled**, when your key request is cancelled by you or the License Manager administrator.
 - **Activated**, you activated your CardStudio 2.0 software with your key.
 - **Upgraded**, your license key has been upgraded to another key and is not in use anymore.
 - **Revoked**, your license key has been revoked and cannot be used anymore.
- G. To find the License Key code that you can copy and paste in the CardStudio 2.0 Software. Click on the key  icon:

The screenshot shows a pop-up window titled 'LICENSE KEY FOR CARDSTUDIO™ 2.0 PROFESSIONAL'. It contains a message: 'You can Copy and Paste this license key into your CardStudio 2.0 software'. Below this, it says 'By using this license key, you accept the [CardStudio 2.0 End User License Agreement](#).' The license key itself is displayed in a text box: 'twEAERcAAAANi+L5QiTUAQDwxnpQdSAGABpADxyb290PjxSZWdUeXBIPk9ubGluZTwvUmVnVHwZT48VXNlckluZm8+WmVicmEtTWYayOxPC9Vc2VySW5mbz48UmVmZXJlbmNlPpFQUJUSUPQVZMPC9SZWZlc mVuY2U+PC9yb290Pglimg+kr1fKO40nlyMjri6uTo2yQ2MfpQEVc8wyuRQ1B9eL3j4mR4Br2pSQBBBoQ='. Below the license key, there is a 'Reference' field with the value 'ZEBRTJROAVL'. A 'Close' button is at the bottom right.
