CL920 Tablet PC Features

**Features**

1. Speaker
2. Web camera
3. Web camera light
4. Microphones
5. Volume buttons
6. Touchscreen display
7. Windows button
8. Ambient light sensor
9. Battery charge indicator lights
10. Documentation camera
11. Dock connector
12. Pen storage drawer
13. Pen release button
14. Pen tether attach point
15. SIM card slot
16. Fan vent
17. Security button—Lock and Unlock (Ctrl+Alt+Del)
18. Battery gauge button
19. SD HC card slot
20. SIM card slot
21. Micro HDMI port
22. Audio in/out jack
23. USB 3.0 port
24. Power adapter port

**Fonctions**

1. Haut-parleur
2. Webcam
3. Voyant de la webcam
4. Microphones
5. Boutons de volume
6. Écran tactile
7. Bouton Windows
8. Capteur de lumière ambiante
9. Voyants de charge de la batterie
10. Appareil photo
11. Connecteur de station d'accueil
12. Espace de rangement du stylet
13. Bouton d'éjection du stylet
14. Point de fixation du lien du stylet
15. Bouton d'alimentation
16. Aération du ventilateur
17. Bouton de sécurité Windows—Verrouillage et Dérverrouillage (Ctrl+Alt+Suppr)
18. Bouton de charge de la batterie
19. Fente pour carte SD HC
20. Fente pour carte SIM
21. Port pour micro HDMI
22. Prise jack entrée/sortie audio
23. Port USB 3.0
24. Port adaptateur secteur

**Funktionen**

1. Lautsprecher
2. Webcam
3. Webcamlicht
4. Mikrofone
5. Lautstärkeregelung
6. Touchscreen-Anzeige
7. Windows-Taste
8. Umgebungslichtsensor
9. Akkuladungs-LEDs
10. Dokumentationskamera
11. Docking-Anschluss
12. Stiftschacht
13. Stiftefreigabetaste
14. Befestigung der Stift-Haltevorrichtung
15. Netzschalter
16. Lüftungsschlitze
17. Sicherheitstaste "Windows-Sicherheit"—Sperren und Ent sperren (STRG+ALT+ENTF)
18. Akkuanzeigen
19. SDHC-Kartensteckplatz
20. SIM-Kartensteckplatz
21. Mikro-HDMI-Anschluss
22. Audioeingangs-/ausgang
23. USB 3.0 Anschluss
24. Netzadapteranschluss

**Características**

1. Altavoz
2. Cámara web
3. Luz de cámara web
4. Micrófonos
5. Botones de volumen
6. Pantalla táctil
7. Botón Windows
8. Sensor de luz ambiental
9. Luces del indicador de carga de la batería
10. Cámara de documentación
11. Conector de base
12. Compartmento de almacenamiento del lápiz
13. Botón de extracción del lápiz

15. Botão de energia
16. Abertura de ventilação
17. Botão de segurança do Windows—Bloqueio e Desbloqueio (Ctrl+Alt+Delete)
18. Botão indicador da bateria
19. Slot do cartão SD HC
20. Slot do cartão SIM
21. Porta micro HDMI
22. Conector para entrada/saida de áudio
23. Porta USB 3.0
24. Porta do adaptador de energia
Powering on and off

Press the Power button at the top left side of the CL920 Tablet PC.

You can shut down your tablet from Windows®. Tap the Windows icon in the lower left corner of the screen or press the Keyboard button. Tap Power and then tap Shut down. If Windows doesn’t respond, force the tablet PC to shut down by pressing the Power button for about five seconds.

Using sleep mode

Place your CL920 in Sleep mode when you go away for a short period of time to conserve battery power. When you return, the Tablet PC quickly resumes activity and your desktop is the same as you left it.

To put the Tablet PC in Sleep mode, press and release the Power button. To wake up the tablet from Sleep mode, press the Power button again.

**Note** The power button blinks when the tablet is in sleep mode.

Locking and unlocking

To lock and unlock your CL920, press the Security button on the left side of the Tablet PC.

Using the pen

An important difference between traditional PCs and Tablet PCs is that you frequently use a digitizer pen instead of a mouse and keyboard. The CL920 pen has a pressure-sensitive tip and a function button. Pressing the function button is equivalent to right-clicking a mouse.

Using touch

Your CL920 is equipped with 10-finger touch, which means you can use your fingers to select items and open files, zoom in and out, scroll through browser windows and documents, and more.

Touch works like a mouse. Tap to select an item and double-tap to open it.

**Tip** To open a right-click menu using touch, press your finger on the display until a square appears, then lift your finger and the shortcut menu appears.

If the touchscreen doesn’t respond as you expect, or if the tablet starts to respond to unintentional touch input, you can fine-tune touch by resetting the touch system to its optimal state. To start the application, tap the Tablet Center tile, then tap Tablet, and then tap Touch Settings.
Checking battery power

You can check the remaining battery power in your CL920. In the Windows Notification area, tap the power indicator, which changes appearance depending on whether the Tablet PC is plugged in or running on battery.

- If the Tablet PC is plugged in, tap the Plug icon.
- If it is on battery power, tap the Battery icon.

The five lights on the left front of the Tablet PC also indicate the battery’s current level of charge—from one green light (≤ 20% charged) to five green lights (81%–100% charged). Press the battery gauge button on the left side of the Tablet PC to view the remaining charge level.

When the tablet is plugged in, the battery gauge button lights up.

- Green indicates that the battery is fully charged.
- Amber indicates that the battery is charging.

Battery tips

- Use AC power when available. When the tablet is plugged in, the battery charges while in use.
- Put your Tablet PC in sleep mode when you’re not using it.
- Stop unnecessary background applications and processes.
- When not in use, disable wireless adapters using the Tablet Center Power category.
- Set the brightness of the display to dim automatically after a selected number of minutes of inactivity by using the Tablet Center Power category. Tap Power, tap Advanced, and tap Choose when to turn off the display.
- When using mobile broadband, you can reduce how often the tablet updates email and other Internet applications by limiting the updates to once every half hour or longer.
- Disable mobile broadband when you know a signal is unavailable.
- Condition your battery once a month. To condition it, run the tablet on battery power until the battery’s charge level drops below 20%.
- For long-term storage of the battery, ensure that the charge level is between 20–40% before removing it from the Tablet PC.
Entering text with the input panel or on-screen keyboard

You can choose from two different methods to enter text with the CL920 tablet. You can use an on-screen touch keyboard or the handwriting panel.

To open the on-screen keyboard, you can either:

- Tap the **Keyboard** icon in the Windows notification area.

  OR

- Tap in a text field, such as the URL field in a web browser.

The default on-screen keyboard appears at the bottom of the screen. You can move it to a different location.

To open the handwriting panel:

1. In the on-screen keyboard, press and hold the **Keyboard** icon in the lower right corner of the keyboard.
2. In the panel of icons that pops up, tap the **Handwriting Panel** icon.

The handwriting panel appears at the bottom of the screen.

Use the digitizer pen to write in the handwriting panel. The software converts your handwriting to text.

**Tip** The more you write, the more accurately Windows® 10 detects your handwriting style.

In addition to the default on-screen keyboard, Windows®10 provides other keyboard layouts for entering text. You can use an expanded keyboard that provides additional keys or a keyboard that includes a number keypad.

Expanding Keyboard

To close the on-screen keyboard or handwriting panel, tap the **Close** icon in the upper right corner. To minimize the on-screen keyboard or handwriting panel, tap the minimize icon in the upper right corner.
Setting up wireless

The CL920 includes built-in Wi-Fi® and Bluetooth® technology. Your Tablet PC can also have mobile broadband. To set up available wireless networks, follow the steps in these procedures.

**Procedure: Setting up Wi-Fi technology**

1. Enable Wi-Fi as follows:
   a. Tap the **Notifications** icon and tap **All settings**.
   b. In the All settings menu, tap **Network Internet**.
   c. Slide the Wi-Fi On/Off slider to **On**.
2. Select a wireless network from the available networks.
3. Follow the on-screen instructions.

**Procedure: Setting up Bluetooth technology**

1. Enable Bluetooth as follows:
   a. Tap the **Notifications** icon and tap **All settings**.
   b. In the All settings menu, tap **Devices**.
   c. Under **Devices**, tap **Bluetooth**.
   d. Slide the Bluetooth On/Off slider to **On** and the Tablet PC begins to search for Bluetooth devices.
2. To add a Bluetooth device:
   a. Ensure that the Bluetooth device is discoverable according to the manufacturer’s instructions. (When a Bluetooth device is discoverable, it is visible to other Bluetooth devices within range.)
   b. Select the desired Bluetooth device from the list of devices.
   c. Follow the on-screen instructions.

**Procedure: Setting up Mobile Broadband with GPS (optional)**

If you purchased your tablet with the optional mobile broadband module, you can connect to high-speed cellular networks worldwide. With the mobile broadband module and a data plan from one of several cellular network providers, you have full Internet access.

**Note** Before you can connect to a mobile broadband network, you must have an active account with a cellular network provider and obtain a SIM card for mobile broadband access.

1. With the Tablet PC power **off**, insert the SIM card and power the tablet on.
2. Enable mobile broadband as follows:
   a. Tap the **Notifications** icon and tap **All settings**.
   b. In the All settings menu, tap **Network Internet**, and then tap **Cellular**.
   c. Tap the **Cellular** icon showing your service provider.
   d. Tap the **Connect** button to make a connection.

**Note** If you purchased your tablet with the optional mobile broadband and a GPS module or the optional discrete GPS module, then the tablet has GPS capabilities. You can use GPS with your preferred mapping application to find your current and destination locations. Refer to the User’s Guide for additional information.
Tablet Center

The Tablet Center provides a central location for accessing and configuring the most common Windows® 10 settings.

To open the Tablet Center:

- Tap the Tablet Center icon in the Windows taskbar.
  
  OR

- From the Windows 10 Start screen, tap the Tablet Center tile.

This table lists some of the tasks you can do with the Tablet Center.

Using the documentation camera

Your CL920 is equipped with an integrated 5 megapixel autofocus camera. You can use the camera to take pictures and save them on the Tablet PC. The camera lens is on the back of the unit.

To take a photograph:
1. Tap the camera icon on the Windows taskbar to activate the xCapture Pro™ application.
2. Hold the camera steady and point the lens at the object.
3. Press the camera icon to take the picture.

Using the web camera

The CL920 also has a 1.3 megapixel web camera that supports color images and streaming video. The web camera is on the front of the tablet in the top center area.

To start the web camera, follow the instructions of the software you are using. To use Skype® with your web camera, you can access it by tapping the Skype tile on the Windows® 10 Start screen. Follow the on-screen instructions for using Skype or the web camera software of your choice.
## Tips

The Tablet Center provides a central location for accessing and configuring the most common Windows® 10 settings.

### Pen and Touch Tips

- You can change from right- to left-handed use. From the Tablet Center, tap **Tablet PC Settings**, tap the **Other** tab, and tap **Left-handed**.
- You can open items with one tap (instead of two) and select an item by pointing to it. From the Control Panel, tap **Folder Options**, and then tap **Single-click to open an item (point to select)**.

### General tips

- Use only the CL920 digitizer pen or your finger on the display. The Tablet PC doesn’t respond to any other type of pen or stylus.
- When attaching the pen tether, slip one end of the tether through the hole at the end of the pen and pull the pen through the loop until it’s tight. Then slip the other end of the tether through the attach point and pull the pen through the loop until it is tight.
- Store the pen in the pen storage bay when not in use. To store the pen, press the pen release button and insert it into the pen storage bay, tip down. To remove the pen, press the pen release button and pull the pen upward and out from the storage bay.
- Clean fingerprints and smudges from the display surface by wiping it with the display cloth provided.
- You can find the serial number of your tablet in the Tablet Center on the Tablet screen.

### Learn More

To get more detailed information about your Tablet PC, go to the Motion Computing site, click **Support**, and then **User Documentation**. You can download the CL920 User Guide for Windows 10. You can also find the following information on the [www.motioncomputing.com](http://www.motioncomputing.com) website:

- **Knowledge Base** under the **Support** tab
- Free, online **Training Videos** are under the **Support** tab
- The **Software** and **Accessories** tabs under the **Products** tab

### Caution • Attention • Achtung • Precaución • Precaución

- Read the Safety and Regulatory Guide before starting the tablet.
- Veuillez lire le **Guide des conseils de sécurité et réglementations** avant de démarrer la tablette.
