Zebra Scan Scan Write Application for IOS

Release Notes for V1.0.4

Contents

Introduction

This release notes are for the Zebra Scan Scan Write Application for IOS V1.0.4

Description

The Zebra Scan Scan Write application demonstrates the use case of using the IOS phone to program tags using the RFD8500 over Bluetooth Serial Port Profile. The application showcases the typical use case of scanning the UPC & EPC bar codes and uses the information to write the unique EPC ID to the tag.

1. Works with UPC-12 (GTIN12) barcode for company prefix and item identifier
2. Serial number is derived from temporary EPC tag scanned

Updates over v1.0.2

- Fix issue related to switching between connection and disconnection for multiple readers

Device Compatibility

- RFD8500

Release Notes

- Zebra_Scanscanwrite_1.0.4
