Installation and Configuration Instructions

To install the Camera Software 2.5.0.8 update, perform the following steps:

1. Download the update and save to the directory location of your choice.
2. **Uninstall** any previously installed **xCapturePro** through **Control Panel → Programs and Features**
3. Unzip the file to a location on your local drive.
4. Double-click the installer (xCapturePro.msi) and follow the prompts.

Licensing

Refer to your applicable end-user licensing agreement for usage terms.
