What's New in this Release

-

Installation and Configuration Instructions

To install the Wireless Driver 20.70.12.5 update, perform the following steps:

1. Download the update and save to the directory location of your choice.
2. Unzip the file to a location on your local drive.
3. Right-click the installer (WLAN_install.cmd) and select 'Run as administrator'.
4. The update process completes quickly with no additional user action.

Licensing

Refer to your applicable end-user licensing agreement for usage terms.
