Fixes in this Release

This update resolves a non-responsive digitizer state when the tablet wakes up from Sleep mode, in the Vista operating system.

What's New In This Release

None

Known Issues and Limitations

None

Installation and Configuration Instructions

To install this version update, perform the following steps:

1. Download **LE1700_WacomPenDriver_v2784.zip**
2. Open **Device Manager** and expand **Human Interface Devices**.
3. Right-click **Wacom Serial Pen Tablet** or **Wacom Penabled MiniDriver**, and choose **Update Driver**.
4. Select **Install from a specific location** and designate the installation location as the same location where the new Wacom drivers were saved.
5. Follow the wizard, click **Next** when necessary, and wait for the driver to install.
6. Recalibrate the digitizer:
 - a. Open Dashboard.
 - b. Select the **Pen & Tablet** category.
 - c. Select **Calibrate Digitizer**, and perform the calibration.

Licensing
