Fixes in this Release

- Fix 3rd party plugin installer error code 1641 warning message.
- Add fingerprint re-enroll warning message when upgrading the Authentec driver from AT7 to AT8.
- Fix trial version display issue under Add/Remove programs, version number does not display .TE.
- Fix random crash in loginui when SSO was enabled.
- Fix issue with multiple help pages opening after clicking on "Set Auth Rule" or "?".
- Update the copyright year to 2001 - 2010.

What's New In This Release

- Integrate Authentec AT8 32-bit driver with OEM customizations.

Known Issues and Limitations

If the current OmniPass version is 6.x.x, this package will install as a trial version upgrade that will require an additional upgrade activation fee.

Installation and Configuration Instructions

To install this version update, perform the following steps:

1. Download this update to the directory location of your choice.
2. Unzip the file to a location on your local drive.
3. Back up your existing OmniPass profile (see OmniPass Help for details).
4. Run version 7.00.21 setup.exe and follow the prompts.

Licensing

Refer to your applicable end-user licensing agreement for usage terms.
