File Name	CF5v_A05_BIOS.zip CF5v_A05_BIOS(x64).zip
Release Date	July 13, 2011
This Version	A05
Replaces Version	All previous versions
Intended Users	Motion Computing C5v and F5v users
Intended Product	Motion Computing C5v and F5v Tablet PCs only
File Size	1.8 MB
Supported Operating System	-Windows7 (32-bit/64-bit), all versions - Windows XP Tablet Edition 2005, Version 2002, Service Pack 2 - Installed.

Fixes in this Release

- Enable USB memory safely remove to prevent file corruption.
- Fix phantom F12 key events.
- Remove HD password option in BIOS setup.
Motion has removed the ability to set a hard drive password within the BIOS of our systems. Motion is no longer able to provide support for this feature and as a result we are no longer offering it.

Installation and Configuration Instructions

Important BIOS Installation Information

- This BIOS update contains an EC update. To activate the EC change you must remove AC after the installation completes (shut down).
- This BIOS update will reset the BIOS configuration settings. After the installation is complete you will need to reapply any non-default BIOS configuration settings. The BIOS password will be preserved during the installation process.

To install the BIOS update:

1. Download the BIOS update to the directory location of your choice.
2. Unzip the file to a location on your local drive.
3. Double-click installer and follow the prompts.
Note: Ensure the tablet is using AC power before opening the file.
4. The update process may take some time. Do not manually power-off the tablet during the update.
5. The tablet will automatically shut down after installing the BIOS.

Licensing

Refer to your applicable end-user licensing agreement for usage terms.
