### Fixes in this Release

- Adjust display refresh rate to match digitizer hardware revision.
- Fix occasional documentation camera preview window black screen issue when resuming from hibernate.
- Fix random system wake from hibernate hang.

### Installation and Configuration Instructions

#### Important BIOS Installation Information

- This BIOS update contains an EC update. To activate the EC change you must remove AC after the installation completes (shut down).

#### To install the BIOS update:

1. Download the BIOS update to the directory location of your choice.
2. Unzip the file to a location on your local drive.
3. Double-click installer and follow the prompts.  
Note: Ensure the tablet is using AC power before opening the file.
4. The update process may take some time. Do not manually power-off the tablet during the update.
5. The tablet will automatically shut down after installing the BIOS.

### Licensing

Refer to your applicable end-user licensing agreement for usage terms.
