## Description

Thank you for selecting Zebra as your mobility solution tool provider. This package provides a complete software image for the MK500/MK590 products, in an OSUpdate package and individual hex files for use with TCM

For the latest software updates, go to the [Support Central](#) web site and select Software Downloads.

For more information on Windows CE development and Enterprise Mobility platforms, please visit the [Products](#) Web site.

*Thank you,*

*The Zebra Software Development Team*

## Installation

Installation can be accomplished by either using a MicroSD card or copying the installation files to the device's Temp folder and installing from there.

### MicroSD Card Installation

- 1) Extract all files and folders from 5Cxxc50BenUP013016.zip
- 2) Copy the OSUpdate folder and all subfolders and files to the root of the MicroSD cards
- 3) Insert the MicroSD card into the MK500/MK590
- 4) From the MK500/MK590 execute *My Device* from the desktop
- 5) Open the *Storage Card* folder
- 6) Open the OSUpdate folder
- 7) Double tap on the file *MK500c50BenColor\_SD.lnk*
- 8) Installation will begin and the device will reset when complete

### Temp Folder Installation

- 1) Extract all files and folders from 5Cxxc50BenUP013016.zip
- 2) Establish an ActiveSync session
- 3) Copy the OSUpdate folder and all subfolders and the device's \Temp folder
- 4) From the MK500/MK590 execute *My Device* from the desktop
- 5) Open the *Temp* folder
- 6) Open the OSUpdate folder
- 7) Double tap on the file *MK500c50BenColor\_Temp.lnk*
- 8) Installation will begin and the device will reset when complete
