- Infineon TPM security vulnerability firmware patch
- Legacy mode PXE boot not reliable

### What's New in this Release

A07

- Restore BT power state after system reboot/cold-boot
- Power button press WMI event object notification
- Customized POST logo
- BIOS setup password automation

### Known Issues

N/A

### Installation and Configuration Instructions

**To install the BIOS A07 update, perform the following steps:**

1. Download the update and save to the directory location of your choice.
2. Unzip the file to a location on your local drive. This package contains the BIOS payload iX125R1\_A07.exe and the TPM firmware TpmFw.cab file.
3. Double-click the installer (iX125R1\_A07.exe) and follow the prompts.

**Note: TpmFw.cab must be in the same directory with iX125R1\_A07.exe. This BIOS update utility will restart the tablet twice. The first reboot updates the BIOS and then the second reboot updates the TPM firmware.**

### Licensing

Refer to your applicable end-user licensing agreement for usage terms.
