- CVE-2018-3640 – Rogue System Register Read (RSRE) – also known as Intel Variant 3a micro code patch

What's New in this Release

N/A

Known Issues

N/A

Installation and Configuration Instructions

To install the BIOS A08 update, perform the following steps:
1. Download the update and save to the directory location of your choice.
2. Unzip the file to a location on your local drive. This package contains the BIOS payload iX125R1_A08.exe and the TPM firmware TpmFw.cab file.
3. Double-click the installer (iX125R1_A08.exe) and follow the prompts.

Note: TpmFw.cab must be in the same directory with iX125R1_A08.exe. This BIOS update utility will restart the tablet twice. The first reboot updates the BIOS and then the second reboot updates the TPM firmware if needed.
