Release Notes – SPR 25326 – ET1N0 USB OTG Port gets no response when unplugging/plugging AC power (220V) several times.

Introduction

ET1N0 USB OTG Port gets no response when unplugging/plugging AC power (220V) several times.

Description

ET1N0 USB OTG Port gets no response when unplugging/plugging AC power (220V) several times. Coming patch will fix the issue. When the issue happens, the Left-Top icon will disappear for 1~3 seconds. Please wait the icon to be displayed, and then the scanner should work again.
