Introduction

GPS Monitor Log files consume Device's internal flash file system space.

This fix was missed from SP V26, so this apk is required in order to fix this issue on that version.

Description

1. Same apk as for SPR 23740 - GPSLogFileClean-0219.apk

Fixed Issues

- SPR 25308 – disable GPS flash logs

Contents

1. GPSLogFileClean-0219.apk.

Device Compatibility

This software release has been approved for use with the following Symbol devices.

Device	Operating System
ET1N2	Android GingerBread 2.3.4

Installation Requirements

- n/a

Installation Instructions

- Copy the apk into the device and install it.

Part Number and Release Date

March, 2014
