# MC9100 OPERATING SYSTEM WM BSP 2.41.03 AND CE BSP 02.32.04 - HOTFIX CFE 1.0 RELEASE NOTES

## 1 INTRODUCTION

**This patch addresses following issue: When MC9190 terminal is inserted into** cradle, ActiveSync connection over serial doesn't auto-**initiate, it works only when** "**\Windows\**repllog.exe" is tapped.

## 2 DESCRIPTION

**1. As part of the fix, serial driver of MC9190 device is being modified and updated** version of the "amagansett_serial.dll" is included in the .cab solution.

**2. If an application or the user cleans up device, this .cab solution has to be re-installed.**

## 3 CONTENTS

**FIX_SPR23532_MC9190_WM_SerialActiveSyncIssue_NoReboot.cab**

**FIX_SPR23532_MC9190_WM_SerialActiveSyncIssue_WithReboot.cab**

**FIX_SPR23532_MC9190_CE_SerialActiveSyncIssue_NoReboot.cab**

**FIX_SPR23532_MC9190_CE_SerialActiveSyncIssue_WithReboot.cab**

## 4 DEVICE COMPATIBILITY

**This software release has been approved for use with the following Symbol devices.**

| Device | Operating System |
|--------|------------------|
| MC9190 | Windows Mobile 6.5/Windows CE6.0 |

## 5 INSTALLATION REQUIREMENTS

**MC9190 flashed with BSP41.03 (WM OS Version) or OEM Version 02.32.03 (CE OS Version) and later versions.**

# 6   INSTALLATION INSTRUCTIONS

**For NORMAL installation of the PATCH:**

1. Copy "FIX_SPR23532_MC9190_WM_SerialActiveSyncIssue_WithReboot.cab"
**file for the WM OS version or**
"FIX_SPR23532_MC9190_CE_SerialActiveSyncIssue_WithReboot.cab" file for the
**CE OS version of the terminal by using ActiveSync.**

2. **Deploy the solution by tapping on the .cab file.**

3. **After successful deployment of the.cab file, device will do an automatic reboot.**

**For MSP or REMOTE installation of the PATCH:**

1. Copy "FIX_SPR23532_MC9190_WM_SerialActiveSyncIssue_NoReboot.cab" file
**for the WM OS version or**
"FIX_SPR23532_MC9190_CE_SerialActiveSyncIssue_NoReboot.cab" file for the
**CE OS version of the terminal by using ActiveSync.**

2. **Deploy the solution by tapping on the .cab file.**

3. **Change will take effect after a manual reboot of the terminal is done.**
