Release Notes - MC9596 WM6.5 - BSP v60.47.0020 - SHA2 Support For Spanish Localized OS Version - SPR 29084

Introduction

This OS hotfix image addresses SPR29084 – MC9596 SHA2 Support. This OS Hot fix includes a new AKU build no. 29315 from Microsoft that contains the support for recognizing the SHA2 certificate through Cryptographic APIs (CAPIs).

Description

The issue is seen on MC9596 device running WEH6.5 based OS image. SHA2 certificate does not get recognized properly. When trying to install any root SHA2 certificate, the certificate gets installed in intermediate section rather than the root section. Also due to the certificate issue, Microsoft exchange server email sync does not happen.

Contents
