Usage Notes

- PTT Express Android client v4.0.x and above requires a Zebra license to use the application. Please refer to the Zebra Licensing User Guide for information on installing license for this application.

- PTT Express version 4.0.x cannot be installed on devices with Android 10 or below.
- PTT Express version 4.0.x cannot be installed on devices where PTT Express client is pre-installed.
- PTT Express version 4.0.x is only available via Managed Google Play Store.
- PTT Express version 4.0.x requires 'SYSTEM_ALERT_WINDOW' permission to be granted in order to operate. When user presses PTT button to initiate PTT call, PTT Express application will come to foreground, if it was in background.

Known Issues

- PTT Express notification icon can be seen in notification bar even when user disables the PTT Express service.

About WFC PTT Express

WFC PTT Express allows enterprises to quickly and easily add secure push-to-talk (PTT) communications to a wide variety of Zebra devices, creating a powerful instant voice connection between your workers — without requiring the purchase of new devices or network/telephone infrastructure. With PTT Express, workers can initiate a broadcast PTT call, and call recipients can respond either to the entire group — or only to the original caller via the private response key.
