OS Support

WFC PTT Pro Android client 3.3.10226 is supported on devices running Android 8.1, Android 10, Android 11, Android 12, and Android 13 OS.

Note –

- Customers using the Gen 1 or Gen 2 PTT Pro Android client must upgrade to the Gen 2 client (version 3.3.10186 or above) by March 31st, 2023. Versions earlier than 3.3.10186 will not be supported after March 31st, 2023. Support for Android 5, 6, and 7 is also deprecated.

New in WFC PTT Pro Android Client v3.3.10226

This is a patch release which consists of the following feature:

Retain Headset Type Configuration Value Starting with v3.3.10226, **headsetType** configuration value will persist across user login and logout and not reset to the default value.

Resolved Issues

NA

Usage Notes

- Notes for v3.3.10226 –
 - "Allow Bluetooth Audio" setting has been removed. WFC PTT Pro client will automatically use Bluetooth device for audio if Bluetooth Device is paired with device. User still needs to configure Headset PTT Button for PTT Button usage.
 - To use certain Bluetooth PTT Button accessories, WFC PTT Pro client requires installation of Zebra WFC Central component. Zebra WFC Central is not required if Bluetooth accessories is used for audio communication only. Please see Zebra WFC Central User Guide for further information.
 - Jabra BlueParrott Bluetooth Headsets requires installation of Zebra WFC Central component.
 - WFC PTT Pro client will no longer work on rooted Android devices.
 - On devices with Android 12 and above, user must grant extra permission "Allow WFC PTT Pro to find, connect to, and determine the relative position of nearby devices?" when WFC PTT Pro client is used with Bluetooth accessories.
- When both Wired headset and Bluetooth Headset are connected to device, PTT call audio will route via wired headset but not through Bluetooth headset.
- WFC PTT Pro client does not support self-signed certificates.
- Please note that accuracy of voice recognition for Voice Commands feature is dependent upon "Google" app on the device. Please make sure that device has the latest version of "Google" app installed. Google App can be manually updated by following steps described [here](#).
- The WFC PTT Pro for Android supports the following languages:
 - English
 - Czech
 - Dutch
 - German
 - Hungarian
 - Italian
 - French (Canada)
 - French (France)
 - Polish
 - Russian
 - Spanish (Spain)
 - Slovak
 - Swedish

About WFC PTT Pro

Workforce Connect PTT Pro connects your workforce with enterprise-class instant PTT and secure messaging services that support text, images, audio, and video. Now, workers can talk to any user or group with the press of a button — no more waiting for a callback or phone tag. You can barge into an ongoing PTT call in the event of an emergency — and you can set a Priority Caller level so that specific users will always override any call in progress. With User Presence information, workers can identify who is available before placing a call or sending a text, audio or video message to ensure an instant connection. And unlike consumer cellular standard text message services, all text messages are encrypted in-transit, meeting enterprise security needs. Services are available over cellular* and WiFi networks, so they are always available to your workers, regardless of where they are located. Visibility into the status of every user provides workers with the intelligence to select the best contact that is available to provide an answer, right now. And deployment couldn't be easier — just subscribe to these Workforce Connect PTT Pro cloud-based services and your workers are up and running. Get the power of one with Workforce Connect. One solution that provides enterprise-class PTT and secure messaging. One connected workforce. And all the communication services your workers need — data, voice and multi-media messaging — all on a single device.
