

WFC PTT Pro Desktop Client for Windows

Version 3.0.0.15050

Release Notes - September 2021

Highlights

Release v3.0.0.15050 offers

- Keyboard shortcuts keys to initiate PTT Calls
- WFC Profile Manager v4.3 Support
- Additional language localizations
- Maintenance Updates

Device Support

The WFC PTT Pro Desktop Client for Windows may be installed on computers running the Microsoft Windows 10 x64 operating system. This client requires mouse and keyboard to operate properly.

New in WFC PTT Pro Desktop Client v3.0.0.15050

Keyboard shortcuts keys to initiate PTT Calls

Allows user to assign various keyboard shortcut keys such as alt, ctrl, shift with a..z, 0..9 keys to initiate or respond to PTT calls.

WFC Profile Manager v4.3 Support

Allows client to be used with latest WFC Profile Manager v4.3

Additional language localizations

Support for additional languages has been added. New languages added are – Czech, Hungarian, Polish, Slovak, Swedish

Known Issues

- If "Allow Contact Management" and "Allow Group Management" feature keys are both disabled together, WFC PTT Pro Windows Desktop may crash when receiving or making PTT call. To avoid this issue, please enable at least one feature key mentioned above.
- If "Activate DnD in Silent Mode" client setting is enabled, client will reject incoming PTT calls. To avoid this issue, please disable "Activate DnD in Silent Mode" client setting for WFC PTT Pro Desktop Client user.

Usage Notes

- Please refer to Workforce Connect Zebra PTT Pro Installation Guide for installation instructions.

- As there are changes for security related parameters, it is required that the user be signed out either before OR after upgrading to this version from the previous version (<= 15042).
- WFC PTT Pro Desktop Client supports following language localizations. Please refer to User Guide for more details.
 - Czech
 - German - Germany
 - English - United States
 - Spanish - Spain
 - French - Canada
 - French - France
 - Hungarian
 - Italian - Italy

About WFC PTT Pro

Workforce Connect PTT Pro connects your workforce with enterprise-class instant PTT and secure messaging services that support text, images, audio, and video. Now, workers can talk to any user or group with the press of a button — no more waiting for a callback or phone tag. You can barge into an ongoing PTT call in the event of an emergency — and you can set a Priority Caller level so that specific users will always override any call in progress. With User Presence information, workers can identify who is available before placing a call or sending a text, audio or video message to ensure an instant connection. And unlike consumer cellular standard text message services, all text messages are encrypted in-transit, meeting enterprise security needs. Services are available over cellular* and WiFi networks, so they are always available to your workers, regardless of where they are located. Visibility into the status of every user provides workers with the intelligence to select the best contact that is available to provide an answer, right now. And deployment couldn't be easier — just subscribe to these Workforce Connect PTT Pro cloud-based services and your workers are up and running. Get the power of one with Workforce Connect. One solution that provides

enterprise-class PTT and secure messaging. One connected workforce. And all the communication services your workers need — data, voice and multi-media messaging — all on a single device.
