

Zebra WFC Central Client Version 1.0.22404

Release Notes – March 2023

Highlights

Zebra introduces the Zebra WFC Central (ZWC) client. The WFC client provides common functionality used by both the WFC Voice and PTT Pro Android clients, resulting in more efficient device and client operation.

Release v1.0.22404 is now available for customer access. This release offers the following:

- Support Stone Mountain BluSkye Bluetooth RSM
- Non-Zebra Device Support for ZWC

Device Support

ZWC v1.0.22404 has been validated on following Zebra Android devices:

- EC30
- ET40 / ET45
- EC50 / EC55
- ET51 / ET56
- MC20
- MC2200 / MC2700¹
- MC3300 / MC3300x / MC3300ax
- MC9300
- TC21 / TC26¹
- TC51 / TC56
- TC52 / TC57
- TC52x / TC57x / TC52ax
- TC53 / TC58
- TC70x / TC75x
- TC72 / TC77
- TC73 / TC78

OS Support

- ZWC v1.0.22404 is supported on Zebra devices running Android 8.1 Oreo, Android 10, and Android 11.
- ZWC v1.0.22404 is supported on non-Zebra devices running Android 8.1 Oreo, Android 10, Android 11, Android 12, and Android 13.

New in ZWC Client v1.0.22404

Support Stone Mountain BluSkye Bluetooth RSM

Zebra WFC Central will now supports Stone Mountain BlueSkye Bluetooth RSM.

Non-Zebra Device Support for ZWC

Zebra WFC Central will now be supported on non-Zebra devices as well.

Resolved Issues

- No issues

Usage Notes

- Zebra WFC Central is a separate client designed to work with WFC Voice v9.0.22304 or later and. Customers desiring to use the PTT button functions of Bluetooth headsets with these versions of WFC Voice/PTT Pro Android must install Zebra WFC Central. Notes:
 - Zebra WFC Central is not required unless the customer is using the PTT button functions of Bluetooth headsets with the above WFC Voice and/or PTT Pro Android versions.
 - If desired, customers may upgrade ONE of the above clients plus the ZWC without upgrading both clients. For example, WFC Voice can be upgraded to v9.0.22304 without requiring update of PTT Pro Android to v3.3.10195 or later, and vice versa.
- ZWC requires location permissions to support Bluetooth.
- Zebra WFC Central may be installed and used without any configuration or activation. Optionally, configuration for new headset types supporting Bluetooth SPP (Serial Port Profile) can be performed via the bootstrap/token configuration as described in the ZWC Customer Administration Guide and the PVM Customer Administration Guide.
- It is no longer necessary to set BLE PTT Button to enable Bluetooth for voice for WFC Voice v9.0.22304 or later.
- PTT Pro Android v3.3.10195 or later must be configured to bind to Zebra WFC Central by setting the Headset Type to “Zebra WFC Central”. This can be done by bootstrap/token as described in the PTT Pro Android Customer Administration Guide.
- You can configure Zebra WFC Central through the WFC Provisioning Manager v3.0.20306 or higher.

Documentation

- The Zebra WFC Central Customer Admin Guide can be found at the following locations:
 - On the WFC Voice support page at <https://www.zebra.com/us/en/support-downloads/software/productivity-apps/voice-client.html>.
 - On the PTT Pro Android support page at <https://www.zebra.com/us/en/support-downloads/software/productivity-apps/push-to-talk-pro.html>.
