CT40	10
CT45P	11
Samsung Galaxy Tab4	11

Supported OS Platforms for IOS devices

Refer to the PTT Pro IOS User Guide for supported iOS versions.

New in Profile Manager v4.11.0

Email notification support when the license utilization crosses the configured threshold.

This feature support sending the email notifications to the set of people when the license utilization exceeds the threshold percentage value configured in the tenant.

ZEMS manager association during user import

This feature supports the association of user as manager to one or many site/regions in the Zebra Enterprise Messaging system (ZEMS) during the user import. Refer ZEMS administrator guide for more information.

Support user authentication with Google workspace

From this version onwards, user would be able to authenticate with Google workspace.

Refer to the Profile Client Guide for additional configuration support required for authentication.

Add user update API by user login name.

Additional API is provided to update the user by using the user's login name

3	WFC PTT Pro	3.3.10246
4	WFC Central	1.0.23304

UI Build:

	Service	version
1	UI-Portal	1.36.9

Resolved Issues

None

Known Issues

None

Usage Notes

• Profile Manager v4.11.0 is compatible and has been released together with WFC Profile Client v2.0.23300. Profile Manager v4.11.0 is also compatible with the previous 2 releases of profile client.

• Note that the location of the log and configuration files have changed in the Profile Client due to Android 11 requirements.

Documentation

The following documents can be found at https://www.zebra.com/us/en/support-downloads/software/productivity-apps/profile-manager.html.

Document Name	Description
MN-003433: Profile Manager Administrator's Guide	A guide detailing the Zebra WFC Profile Manager portal user interface (dashboard) for administrators or technical representatives to manage an organization's use of mobile devices.
MN-003602: Profile Manager Client Device User's Guide	A user guide for the WFC Profile Client, a device application providing a secure login interface for access to WFC applications. Upon login, the WFC Profile Client provides access to configured applications such as WFC Voice and WFC PTT Pro.
MN-003636: Workforce Connect Active Directory Connector Install & Config Guide	A guide describing how to install and configure Active Directory (AD) Connector running on the customer site with the Profile Manager running on the Cloud.
MN-003720: WFC Profile Client Applications Install & Config Guide for Administrator	A guide explaining on a high level how to "mass install" WFC client applications on client devices. This guide is MDM independent and shows adb commands.
MN-004351: WFC Profile Client Configuration and Programmer guide	A guide describing the configuration parameters of the WFC client, as well as the intents required to configure the client, log into and out of the client, and request status of the client.
MN-004414: WFC Profile Manager Provisioning Guide	A guide describing the available methods of importing users into the Profile Manager.

About Profile Manager

Connect your entire workforce with Zebra's Workforce Connect Profile Manager Solution via Zebra-Hosted Cloud environment that interoperates with Zebra voice and/or push-to-talk services (sold separately). Workers inside or outside the four walls depend on their Mobile Devices for real-time access to business applications. To maximize

productivity, your workforce needs to be able to reach co-workers, customers, supervisors, remote experts and more. WFC Profile Manager connects to customer data services in the cloud, authenticates, automates, and enables multiple user role selection for dynamic line extensions or push-to-talk groups on a shared device.
