[Part Number and Release Date](#)

1 Introduction

For mobile computers which come with DataWedge pre-installed, the DataWedge Toolkit provides the desktop components to support DataWedge on the mobile computer. The DataWedge Toolkit comprises of the DataWedge help file and readme, the DataWedge remote configuration tools and the DataWedge API package. The DataWedge API package contains the API readme, help file and sample source code.

2 Description

1. This Toolkit supports DataWedge v3.5.
2. Added support for ES400, MC65, MC92000 and MK3100. **(May 2013)***
3. Added support for MC2100 Core. **(September 2013)***
4. Added support for MC2100 Professional. **(February 2014)***

* New device approval has been received for this package. The approval did not require any software changes. If you already installed the package, there is no need to download and install it again.
