## **ABOUT THIS GUIDE**

#### Introduction

The *StageNow 4.1 Installation Guide* provides instructions for installing, uninstalling, and upgrading the StageNow Staging Solution, and includes information on versions, compatibility, and system requirements.

### **Chapter Descriptions**

Topics covered in this guide are as follows:

- *Chapter 1, Getting Started* describes the hardware and software requirements for setting up the StageNow Staging Solution.
- Chapter 2, Software Installation provides instructions for installing and uninstalling the StageNow Workstation Tool on a host computer/workstation, as well as information on prerequisite software.
- Chapter 3, Client Configuration describes the client device requirements for connecting StageNow to the device.

## **Notational Conventions**

The following conventions are used in this document:

- Italics are used to highlight the following:
  - · Chapters and sections in this and related documents
  - Dialog box, window and screen names
  - Drop-down list and list box names
  - Check box and radio button names
- Bold text is used to highlight the following:
  - Key names on a keypad
  - Button names on a screen.

- bullets (•) indicate:
  - Action items
  - Lists of alternatives
  - · Lists of required steps that are not necessarily sequential
- Sequential lists (e.g., those that describe step-by-step procedures) appear as numbered lists.

#### **Related Documents**

 StageNow User Help File, p/n MN-002672-xx - provides information on using the StageNow Staging Solution software.

For the latest version of this guide and all guides, go to: http://www.zebra.com/support.

#### **Service Information**

If you have a problem using the equipment, contact your facility's technical or systems support. If there is a problem with the equipment, they will contact the Customer Support Center at: http://www.zebra.com/support.

When contacting support, please have the following information available:

- Serial number of the unit
- Model number or product name
- Software type and version number

Zebra responds to calls by e-mail, telephone or fax within the time limits set forth in service agreements.

If your problem cannot be solved by support, you may need to return your equipment for servicing and will be given specific directions. Zebra is not responsible for any damages incurred during shipment if the approved shipping container is not used. Shipping the units improperly can possibly void the warranty.

If you purchased your business product from a Zebra business partner, please contact that business partner for support.

## **CHAPTER 1 GETTING STARTED**

### Introduction

This chapter includes the hardware and software requirements for setting up the StageNow Staging Solution.

### **StageNow Workstation Requirements**

Following are the minimum requirements for the host computer to run the StageNow Workstation Tool:

- Operating system: Microsoft Windows 7 or 10 (64 bit) Professional English and Simplified Chinese
- Operating memory: 2 GB minimum
- Hard drive storage: 6 GB minimum (if .Net Framework is not already installed)
- Screen resolution: 1366 x 768 (16:9 ratio) recommended
- .Net Framework 4.5.
   .Net 4.5.1 is included in the StageNow installation wizard if required, and also available at http://www.microsoft.com
- StageNow Workstation Tool installer, available at http://www.zebra.com/support
- A PDF reader for supporting staging material, Adobe<sup>®</sup> Acrobat<sup>®</sup> Reader recommended.
- Java Runtime (JRE) to use Audio staging
- · Wireless network interface card to use the Wi-Fi Hotspot feature

**NOTE** For the Chinese version, download the appropriate Adobe Acrobat Reader which supports the corresponding Asian language to generate staging bar codes from a Staging profile.

Only MX versions 8.0 and above support staging devices with the Chinese locale using the StageNow tool.

### **Device and MX Support**

StageNow 4.1 supports Android Version 8.1.0 Oreo and Android Version 9.0 Pie devices.

- Oreo devices are compatible with MX 8.0 and above versions
- Pie devices are compatible with MX 9.0 and above versions

**NOTE** Oreo and Pie devices are backward compatible with most features from previous MX versions.

For a list of the Zebra Android devices and versions that StageNow supports, go to: http://techdocs.zebra.com/stagenow/

Zebra Android Oreo and Pie devices that ship with the StageNow Client support all device configuration options that the StageNow Tool offers.

- StageNow 3.3 was the final version supporting Android 7.1 Nougat devices. Starting from version 3.4, only Android 8.1 Oreo and higher are supported. However, the StageNow Tool can configure older Android devices if a compatible MX version is chosen.
- Support for all Android Version 6.0.1 Marshmallow devices are terminated. StageNow 3.1 will be the final version supporting Android Version 6.0.1 devices. Future StageNow versions will support Android Version 7.1.2 Nougat or higher devices only.
- Support for Android Version 5.x Lollipop devices has been terminated. StageNow 3.0 was the final version to support Android Version 5.x Lollipop.
- Support for Android Version 4.4.x KitKat devices has been terminated. StageNow 2.8 was the final
  version supporting KitKat (Android 4.4.3 or higher) devices. Starting from StageNow 2.9, only the Lollipop
  or higher devices are supported.

## **CHAPTER 2 SOFTWARE INSTALLATION**

### Introduction

This chapter describes how to install the StageNow Staging Solution software.

## **Software Requirements**

The StageNow Workstation Tool requires and auto-installs Microsoft .NET Framework 4.5. The tool also includes the Staging Database and Staging Server.

### Installing the StageNow Workstation Tool

The StageNow setup package is bundled with the required software.

**NOTE** Installing the StageNow Workstation Tool also installs the Staging Database and Staging Server. No separate installation is required for these components.

See *Upgrading the StageNow Workstation Tool on page 2-10* if you have an older version of the StageNow Workstation Tool installed on the host PC.

To install the Workstation Tool:

- 1. Download the setup package staging\_solution.[Version Number].exe.
- 2. Double-click the setup package file.
- 3. If you do not already have .Net Framework 4.5, the installation process prompts you to install it.

	ageNow requires the following items to be installed on your computer. Click Install gin installing these requirements.
Status	Requirement

 If desired, select checkboxes to create a shortcut on the desktop, and/or to launch the StageNow Workstation Tool, and select Next.

Figure 2-11 Download PDF Reader Window

14. Because staging material is presented in PDF files, the Wizard prompts you to download a PDF reader, or skip this if you already have a reader installed. Select the appropriate option and then select **Finish**.

**NOTE** If you chose to download Adobe Acrobat Reader, the reader installation page opens for quick download and installation.

Figure 2-12 StageNow Installation Complete Window

#### Upgrading the StageNow Workstation Tool

If you have an older version of the StageNow Workstation Tool installed on the host PC, upgrade it.

**NOTE** Complete all incomplete profiles before upgrading the StageNow Workstation tool. Profiles that are incomplete after upgrading can exhibit unexpected behavior.

- **NOTE** Installing an older version of StageNow over the latest version (higher version which is already installed) is not recommended and will not work. However, if an older version is required to be installed, you must uninstall the current version in the host PC (refer to *Uninstalling StageNow on page 2-11*), remove the existing StageNow user data, and delete the StageNow database (if any) from the **%APPDATA%** location prior to installing the desired older version.
- 1. Download the setup package staging\_solution.[Version Number].exe.
- 2. Double-click the setup package file. InstallShield detects the existing version and displays the following message.

Question		×
?	Setup has detected an older version of StageNow. Would you like to upgrade?	
	Yes No	

Figure 2-13 Upgrade Message

3. Select **Yes** to proceed with the upgrade, or **No** to retain the existing version and cancel the upgrade. If you select **Yes**, the next message asks whether to remove existing StageNow user data (Settings, Profiles, etc.).

Question	23	问题 33
Would you like to remove the current user data? (Non-current user data will stay intact and can be removed manually.)		?是否要删除当前用户数据?(非当前用户数据将保持不变并可以手动删除。)
<u>Y</u> es <u>N</u> o		Yes No

Figure 2-14 Remove Data Message

- 4. Select the desired option to continue the upgrade.
  - **NOTE** If you choose to retain existing data, the install process does not request an administrator password as it retains the existing password.
- 5. See Installing the StageNow Workstation Tool on page 2-2 for the remainder of the installation instructions.

#### Upgrading to a Non-Released Version of the StageNow Workstation Tool

If you are upgrading an older version of the StageNow Workstation Tool to a non-release version, InstallShield displays the following message:

Figure 2-15 Uninstall StageNow Message

Manually uninstall the existing version using **Control Panel > Programs > Programs and Features > Uninstall**, then run the setup package file again.

### **Uninstalling StageNow**

To uninstall the StageNow Workstation Tool:

- 1. Select Control Panel > Programs > Programs and Features.
- 2. Double-click StageNow. The Installation Wizard opens.
- 3. Follow the steps in the Wizard to complete the uninstallation.

**NOTE** During uninstallation, the tool asks if you would like to remove your user and application (profile) data. Selecting **Yes** deletes all passwords, data, and profiles.

Figure 2-16 Remove Data Prompt

4. Select Finish to complete the uninstallation.

### **Log Files**

StageNow Workstation Tool files are generated in the %userprofile%\AppData\Roaming\StageNow\AST\logs folder. Use these files for debugging and troubleshooting.

## **CHAPTER 3 CLIENT CONFIGURATION**

### Introduction

This chapter describes the client device requirements for connecting StageNow to the device, and lists the Android devices supported.

## **StageNow Client Installation**

StageNow supports all Android Oreo, Nougat and Marshmallow devices from Zebra. Oreo, Nougat and Marshmallow devices that ship with the StageNow Client installed support all device configuration options that the StageNow Tool offers.

### Log Files

Use device log files for debugging and troubleshooting. To review the log to determine the cause of an error, select **Yes** from the staging failure screen, or from the StageNow Client menu, select **Last Staging Error**.

Figure 3-1 Viewing Logs

You can also view logs via the ADB Logcat.
