NA	iSign International	USignIn	Android	USignIn is an application designed to utilize the barcode scanner to scan eDoc quickly for signing. PRIVACY AND SECURITY What really separates USignIn from the rest is that messages are encrypted with our Dynamic PKI encryption algorithm. Compliment that with our Biometric Signature verification algorithm, only intended recipients can open and read encrypted messages. With email and attachment permissions, you control how your recipient read and download attachments. BIOMETRIC SIGNATURE SIGN IN You can quickly and securely sign into your account by using your finger to sign your signature on the screen. Our short-loop biometric signature verification system learns your signature over time; the more you sign in, the easier it is for iSign to learn your signature. Enrolling your signature takes less than 1 minute and only requires 4 signatures. EMEA	Cleverence Soft	Mobile SMARTS	Android	Mobile Business Application platform for creating and executing custom and out-of-box business solutions. Platform supports a lot of PDA's.	Retail, Warehousing	TC8000	**Zebra Enterprise Compatible**
LACR	GIC	HuB	Android	HuB is an application system that supports the collaborative shelf replenishment process. The application aims to automatize sales floor operations on retail, optimizing the usage of resources, the information flow, and reducing the shelf rupture level, in order to maximize sales and improve customer's experience, taking advantage of mobile features. HuB controls goods receiving process, the allocation of products in the backroom area, shelf replenishment, goods transference to the sales floor and its allocation, and product movements inside the store. It also controls products quantity and stock level, using specific algorithms to generate replenishment tasks. At sales floor, shelf addresses are identified (barcodes). For each one of these addresses, products (one or more) are linked/binded and the replenishment information generated and controlled by HuB.	Retail	TC8000	**Zebra Enterprise Compatible**
EMEA	Hardis Group	Reflex Web	Android	Based on web technology, Hardis use their own protocol (different from HTML5) for classical Warehouse activities.	Retail, Manufacturing	TC8000	**Zebra Enterprise Compatible**
EMEA	Keep IT Mobile	KIM Warehouse	Android	The solution is designed for logistics companies and provides a clear picture of the entire flow of goods in a warehouse.	Warehousing, Manufacturing, Retail, Transportation and Logistics	TC8000	**Zebra Enterprise Compatible**
NA	Lucas Systems, Inc.	Lucas Move	Android	Lucas Move, featuring Jennifer, is the core component of our voice picking and Mobile Work Execution solutions. Lucas Move streamlines hands-on processes for warehouse associates who wear headsets and a mobile computer, leaving their eyes and hands-free to focus on their work. DCs can choose to use Move with rugged smartphones or a range of other voice-capable mobile computers, avoiding the costs of proprietary hardware, and getting all the benefits of using new smart devices and wearables. EMEA	Mobisys GmbH	MSB App	Android	The Mobisys MSB (Mobisys Solution Builder) App is a hybrid App which can be connected to any SAP System where the MSB Add-On is installed on. With this App, you can carry out mobile applications for SAP business processes that were defined in the SAP system with the MSB. Using the MSB App on the mobile device and MSB Runtime in the SAP system, you can run mobile applications that were created with ABAP directly and without any middleware; this is based on SAP standard technology (Internet Communication Framework, Web Dispatcher) and runs via telecommunication or a network connection.	Retail, Transportation & Logistics	TC8000	**Zebra Enterprise Compatible**
EMEA	Mostoles Industrial	Shipment Tracking	Android	Control of distribution of pallets / packages by managing load shipments in the distribution center, and unloading at the final destination, ensuring the traceability of packages or pallets, the work done and the duration of the same throughout the distribution process.	Warehousing	TC8000	**Zebra Enterprise Compatible**
EMEA	Norris Print-Tech	MotoScan	Android	The app comes with 4 default scenarios, use as is or configure easily for individual needs. Inventory is the most common data capture scenario needed. Localize it with you own language or headlines, add og modify lines or menus. Use for simple warehouse actions as Move, Receive or register items going out of the stock. Use for field service applications, repair Works etc. Supports Integrated scanners in Zebra Android devices. One time license fee, supports database lookup functions. All without any programming or logic algorithms.	Utilities, Manufacturing, Retail, Field mobility	MC40 TC55 TC70/75 TC8000	**Zebra Enterprise Compatible**
EMEA	Optiscan OY	Abakus Warehouse	Android	Abakus Warehouse solution provides WMS services and similar functionalities. Receiving, put-away, transfers, stock-taking, picking and loading are all performed with the technologies best suited for the purpose.	Transportation & Logistics	TC8000	**Zebra Enterprise Compatible**
LACR	Proxion Solutions	VMS	Android	VMS allows you to design your own form and collect any kind of data in any scenario. You can collect data such as text, number, images and signatures using the device's hardware when available.	Cross-Industry	TC8000	**Zebra Enterprise Compatible**

NA	Zebra Technologies	Printer Setup	Android	An Easy Way to Configure Your Printers. The faster you get new equipment up and running, the more quickly you can achieve your return on investment. With Zebra's Android Printer Setup Utility, configuring your Link-OS printers to optimize performance is easy – no specialized knowledge required. Just download Zebra's Printer Setup Utility app on your Android mobile device and tap the printer you wish to configure. Your printer and device will instantly begin communicating via Bluetooth. Then follow the simple setup wizard that walks you through how to set specific printing parameters – such as calibration, media type, ribbon, printer language and security – to optimize performance. Bluetooth Printers Now Manageable – Even in the Field Traditionally, Bluetooth printers are not easily managed – particularly when the printers are used in the field by a mobile workforce.	Utilities	MC40, TC55, TC70, TC75, MC18, TC8000	**Zebra Enterprise Compatible**
NA	Zebra Technologies	TC8000 Demo App	Android	The TC8000 Demo is specifically designed to help device users experience the differentiating capabilities of the device. The app is intended to run on the TC8000.
