MZ/iMZ Battery Information

Battery: 1620 mAh
Paper: Z-Select 4000D 3.2 mil Receipt Paper
Temp: ambient 20° C

Printer Idle (turn on)

Power on time = 15 hr 14 min

1) Printing Via Bluetooth

Printing Continuously
Total Receipts printed: 2,095
Time to shut down: 5hr 49 min
Receipt Description: 2 in long at 30% density

2) Printing Via WLAN

Printing Continuously
Total Receipts printed: 2,354
Time to shut down: 6hr 31 min
Receipt Description: 2 in long at 30% density

⇒ Life: 300 Cycles (full charge and discharge) recommended, 600 cycles maximum
⇒ Max charge time: 3.5 hours

Factors that will negatively impact results:

- Printing at spaced intervals will extend the battery shut down time. Results shown are printing continuously.
- Temperature: ~ 5% fewer labels for every 10° F drop in temperature
- Print Area Coverage: ~ 32% more receipts can be printed at 19% coverage compared to 30% density coverage
- Darkness Setting: a darkness setting of 8 in general will print ~11% more labels than at a setting of 12
- Print Speeds: Printing at 3 ips vs. 1.5 ips will produce ~24% more receipts
