ZQ300 Mobile Receipt Printer Series

CLASS-LEADING BATTERY POWER, VERSATILITY, DURABILITY AND EASY REMOTE MANAGEMENT IN AN AFFORDABLE MOBILE PRINTER

Your field workers are spending time manually writing up receipts — time they could be spending making more customer visits and better serving your customers. You want to automate receipt generation with a mobile printer, but the list of requirements is long. You need a small mobile printer that can handle the elements, generate high quality receipts in practically any environmental condition, guarantee power for the longest shift, with a ready-to-use remote management solution — all at a price that won’t break the bank. Introducing the little mobile printer that can do it all — the ZQ300 Series. The 58 mm/2 in. and 80 mm/3 in. ZQ300 Series printers provide the perfect footprint — slim, lightweight, compact and never in the way. The ZQ300 Series is ready for the demands of life outdoors. It’s designed to handle the inevitable everyday drops, with a scuff resistant housing that helps keep it looking like new — and you get reliable high-quality printing, even in extreme heat, cold, rain and snow. Class-leading advanced battery and power technologies ensure every worker will have plenty of power, every minute of every shift. And the ZQ300 Series runs Link-OS® and is supported by our powerful Print DNA suite of applications, utilities and developer tools that deliver a superior printing experience through better performance, simplified remote manageable and easier integration. The ZQ300 Series — the affordable little mobile printer that delivers big business value.

MORE VERSATILITY FOR MORE VALUE

Connect to virtually any handheld
Pair the ZQ300 Series with practically any mobile device — any Bluetooth-enabled Zebra mobile handheld computer and tablet, as well as any Android, iOS, Windows CE and Windows Mobile device.

High quality outdoor printing
With IP54 sealing and support for water-resistant media, you can count on legible text and scannable barcodes, even in the rain or snow.

Global media support
The ZQ300 Series accommodates international metric and US media widths.

Less waste with linerless media
Go greener with linerless media. Workers no longer need to manage used liner material throughout their shift. And since linerless media has up to 60% more labels per roll, it requires fewer roll changes, improving printer uptime — and worker productivity.

SUPERIOR INDUSTRIAL DESIGN — DURABLE AND CONTEMPORARY

Consumer styling on the outside — with superior Zebra industrial design on the inside
You get the best of both worlds with the ZQ300 Series. The lightweight design ensures user comfort all shift long. The slim profile makes it easy to use in tight spaces. And while its contemporary look projects the forward-thinking image you want to provide to your customers, you get the durability for which Zebra is famous. In addition to a scuff resistant housing, it’s the only printer in its class to offer triple durability specifications: with IP54 sealing, it’s built to handle splashing liquid and dust. And two impact tests ensure reliable operation, even when dropped: the printer survives 5 ft./1.5 m drops and 500 consecutive hits in our tumble drum, which simulates the real-world tumbling that follows a drop. The result? Reliable operation out in the field.

FASTER, EASIER AND HIGHLY RELIABLE BLUETOOTH CONNECTIONS

The latest Bluetooth connections for faster printing
Enjoy superior printing speeds and power efficiency with the latest in Bluetooth connectivity, Bluetooth 4.0 Classic and Low Energy. And if you need to connect the ZQ300 Series to a Wi-Fi network, optional support for 802.11ac and the latest Wi-Fi security protocols deliver blazing fast and secure connections.
Robust and reliable connectivity
With Zebra's patented Power Smart Print Technology™, your workers get the most reliable connection to their mobile computer. This unique technology manages processing typically handled by the printer CPU, freeing up processing power to deliver more consistent and dependable wireless connections. The result? Maximum productivity.

Split-second tap-to-pair simplicity
The integrated NFC tag allows users to pair the ZQ300 Series with any Zebra NFC-enabled mobile device with a quick tap — no more scanning barcodes, manually configuring devices for discovery or accidental pairing with another nearby device. Even new and temporary workers are up and running in seconds, without having to call for support.

MAXIMIZE BATTERY POWER AND MINIMIZE BATTERY MANAGEMENT TIME AND COST
User-replaceable PowerPrecision+ battery for full-shift power and extraordinary battery management capabilities
Your workers depend on their mobile printers nearly every minute of the day. And with the ZQ300 Series, you can be sure that every worker has plenty of power for every shift. The PowerPrecision+ 2280 mAh battery, a unique sleep mode and patented Power Smart Print Technology™ combine to minimize power requirements, offering one of the longest cycle times in this class. A wealth of easily accessible battery metrics makes it easier than ever to identify, remove and replace aging batteries before they impact productivity. And the ZQ300 Series battery is user-replaceable for perpetual power — ZQ300 Series printers never need to be taken out of service due to a dead battery.

Power-saving sleep mode with instant wake
This intelligent printer automatically enters sleep mode when it is idle, and automatically wakes up upon receipt of a printing job — no need for workers to remember to turn off the printer to save power.

Reduce battery power consumption up to 30 percent with patented Power Smart Print Technology™
This patented Zebra technology reduces battery power consumption by calculating and delivering the exact amount of power required to provide the highest quality printing. Where competitive devices provide a constant level of power, the ZQ300 Series print speed is adjusted dynamically in real time, based on many factors — from motor torque, battery and print head temperature to print density, battery age, available voltage and more. As a result, power consumption is reduced by an average of 20 to 30 percent per battery cycle.

The most charging options for maximum flexibility and scalability
Multi-slot printer and battery chargers that utilize a common base and can even accommodate select Zebra mobile computers make it easy to cost-effectively create a rack-based backroom charging station that can accommodate all your devices now — and in the future. Single-slot printer and battery chargers are ideal on any desk. And with the AC-to-USB power adapter, users can simply plug the printer into any outlet to charge.

SUPERIOR PRINTER MANAGEMENT — EASY, REMOTE, COMPREHENSIVE AND COST-EFFECTIVE
Industry-first application for easy, remote management of Bluetooth-connected ZQ300 Series printers — only from Zebra
Zebra’s one-of-a-kind Bluetooth Remote Management application gives you real-time visibility and remote management of all ZQ300 Series printers that are connected to any Android device via Bluetooth. Running on the Android mobile device, this application collects and sends a wealth of information about the ZQ300 Series to your Mobile Device Management (MDM) solution — either Zebra’s Printer Profile Manager Enterprise printer management software or SOTI MobiControl. Now, the same tool you use to remotely manage your other mobile devices also allows you to easily update, monitor and troubleshoot your mobile printers, all in real-time from a remote central location. Printer management shifts from reactive to proactive, improving printer uptime, ROI and TCO. And since this solution utilizes a secondary Bluetooth communication channel, it won’t interfere with ZQ300 Series printing, protecting printer and mobile device performance.

Zebra Print DNA — transforming printers from the inside
Zebra Print DNA is the genetic code that injects business-catalytic capabilities into our Link-OS printers through its unique combination of innovative applications, utilities and developer tools. The result is a superior printing experience through better performance, simplified remote manageability and easier integration.

Optional printer management services for maximum management flexibility
If you’re still tracking your printers manually, then you are likely missing out on information that could save you money. Zebra’s powerful visibility service options deliver critical insight into the information you need to prevent printer downtime and maximize the return on this key business asset. Our cloud- and subscription-based Asset Visibility Service (AVS) provides insight into the basic health information and proactive steps required to keep your ZQ300 Series printers up and running — all for just pennies a day. The comprehensive fully-featured Operational Visibility Service (OVS) connects to an MDM and allows you to monitor just about any aspect of your Zebra printer, as well service and repair status. See the current status and disposition of all of your printers, printers at a specific site, specific models or a specific printer — and much more.

Consistently exceptional Zebra Certified Supplies
Printing supplies can impact everything from printhead lifespan to operational efficiency. That’s why we design, produce and rigorously pretest our own line of thermal printing supplies to ensure consistent, optimized performance in your Zebra printer — and peace of mind for you. For industry-leading quality, service and thermal printing expertise, choose Zebra Certified Supplies.

Maximize the availability of your printers with Zebra OneCare™ Services
Zebra OneCare Support Services enable your critical business operations. With multiple service levels to choose from, you can protect your investment while achieving maximum uptime and peak performance. Get unmatched support — direct from the manufacturer — with live agent telephone technical support, comprehensive coverage, including accidental damage and defined repair and turnaround times. Plus optional services like Device Commissioning, Onsite Repair, Battery Refresh and Replacement Service and Express Shipping let you tailor your service plan to your individual business needs.
## ZQ300 Series Accessories

From power and charging related accessories to carrying and protection options, cables and more

### POWER AND CHARGING

#### Chargers and Cradles

| Multi-slot |
|------------------|-----------------|
| **5-slot Docking Charger**<br>Dock and charge up to five ZQ300 Series printers simultaneously. This accessory ships complete with power supply and power cord. Select the part number with the appropriate line cord option for your region.<br>Regions: US, EU, UK |

| Single-slot |
|------------------|-----------------|
| **1-slot Docking Cradle**<br>Dock and charge a single ZQ300 Series printer. This accessory ships with a USB cable and an AC to USB adapter. Select the part number with the appropriate plug for the AC to USB adapter.<br>Regions: US, EU, UK, Australia, Brazil, Korea |

| In-Vehicle |
|------------------|-----------------|
| **Cigarette to USB Adapter**<br>Charges the printer via the vehicle lighter power adapter. USB connection to printer; USB cable sold separately. |

| **Dual Charging Vehicle Adapter**<br>Charges a ZQ300 Series printer and a Zebra TC51 or TC56 mobile computer, simultaneously. Includes open ended and cigarette lighter adapter cables. |

| **Vehicle Holder - Dashboard**<br>Attach the ZQ300 Series to the vehicle dashboard with this printer vehicle holder. |

| **Vehicle Holder - Windshield**<br>Attach the ZQ300 Series to the vehicle windshield with this printer vehicle holder. |

### POWER AND CHARGING (CONTINUED)

#### Power Adapters

| **AC to USB Adapter**<br>Use this AC to USB Adapter to charge your ZQ300 Series printer. Select the appropriate part number with the appropriate plug for your region.<br>Regions: US, UK, EU, Australia, Brazil, Korea, India |

### BATTERIES

| **PowerPrecision+ 2280 mAh Li-Ion Rechargeable Battery**<br>Spare printer battery. (Note one battery ships with the printer). Battery Capacity: 2280 mAh |

### CARRYING AND PROTECTION OPTIONS

#### Protection Options

| **Soft Case**<br>This soft case allows for easy attaching/detaching for wearability. Includes shoulder strap. |

| **Shoulder Strap**<br>Easily carry the ZQ300 Series over the shoulder with this comfortable rugged shoulder strap. |

| **Belt Clip**<br>Replacement belt clip (one belt clip ships with the printer); package of 5. |

### CABLES AND OTHER ACCESSORIES

| **Spare USB Cables**<br>Spare USB Type A to Type C cable. Use with the AC-USB Adapter or the Cigarette Lighter Adapter to charge your printer. Printer includes one cable. (Available with 1 or 5 spare units). |

| **Platen Roller**<br>Replace your ZQ300 Series platen roller. |

| **Media Spacer**<br>Spacers for ZQ300 Series media compartment to accept 3 in./76.2 mm or 2 in./50.8 mm wide paper. |

## INCLUDED IN THE BOX

- Printer, battery (Li-Ion 2280 mAh), belt clip, USB cable (Type C to Type A), Quick Start Guide, registration card, Safety Guide, Regulatory Guide

## WARRANTY

The ZQ300 Series is warranted against defects in workmanship and materials for a period of 1 (one) year from the date of shipment. For the complete warranty statement, please visit: [www.zebra.com/warranty](http://www.zebra.com/warranty)

## RECOMMENDED SERVICES

- **Zebra OneCare Support Services**: Maximize Availability & Business Operations with Zebra OneCare™ Support Services. You invest in Zebra printers to enable the growth of your business. And you require operational support for your dynamic environment. Ensure predictable performance, support for critical operations and improved business outcomes, while eliminating unbudgeted repair expenses. Experience unmatched technical support direct from Zebra, as well as comprehensive repair services including accidental damage and defined repair turn-around times. Optional add-on services allow you to tailor your service plan to meet your individual business needs — both today and as your operations evolve.

Note: Service availability may vary by region.
