

PRINTSECURE ROI Calculator

Security issues can eat up IT time and resources, time better spent on other projects. This ROI Calculator will help you consider the value of using PrintSecure-capable printers to reduce the impact of security issues.

Consider the example below – notice how using Link-OS printer drives IT saving from reduced Security issue impacts. Adjust the yellow fields to reflect your scenario.

| Key Factor | Key Values |
|---|------------|
| Cost of printer being offline due to security issue | |
| IT spend to create/test a security fix | |
| IT spend to reconfigure printer to implement fix | |
| Single Intrusion Event Costs | |
| Number of security intrusions/year | |
| Number of non-Link-OS printers in use | |
| Total Cost of Yearly Intrusions | |
| Cost to replace non-Link-OS printers | |
| Total cost to replace existing printers | |
| PrintSecure Savings | |

The Choice is Simple – Update to Save...

- Update existing Link-OS printers to v5
- Change to Link-OS printers to use PrintSecure
- Access the other benefits Link-OS delivers, including powerful PrintDNA Apps, Utilities & Tools
