

PAIRING THE DS6878 TO A TABLET

Instruction Guide

TECHNOLOGY SHOULD WORK TOGETHER.

In an effort to increase productivity and improve efficiencies, businesses continue to adopt consumer products for use in various enterprise applications. Zebra is making it easier than ever for our customers to leverage the superior decode capability of our enterprise grade, secure Bluetooth enabled cordless scanners and couple them with consumer-based devices.

The Symbol DS6878 Cordless Area Imager offers many advantages when used as an auxiliary scanner for your tablet.

- Comprehensive advanced data capture – rapid and accurate capture of 1D & 2D barcodes on both traditional paper and electronic displays, as well as signatures, images of documents, OCR for the capture of printed text, and MICR for automated capture of check-related data; all of these features combine with a wide data capture range, delivering a device that most embedded cameras just can't compete with in scan intensive situations
- iOS Virtual Keyboard Toggle – let's you easily switch between scanning barcodes and entering data on the virtual keyboard
- Bluetooth v2.1 – Provides improved security, performance, energy management and simple pairing over the Bluetooth wireless connection
- Built for all day everyday use – survives multiple 6 foot drops to concrete and has superior battery power management that lasts well beyond a single shift in the highest usage profiles

Zebra is committed to working with our enterprise partners and customers on a wide variety of devices to help them be their best in the moments that matter.
