

Zebra Intelligent Cabinets

How your operations store enterprise mobile devices has an often unrecognized impact on operational efficiencies. If your device storage solution lacks adequate space, security features or a purposeful design, your operations risk:

- Damages to and losses of devices
- Reductions in productivity
- Obstructions to workflows
- Challenges to overall profits

Optimize Device Storage, Accessibility and Management

Zebra Intelligent Cabinets allows your operations to optimize how your enterprise mobile devices are stored, accessed, tracked and managed to harness the most efficient use of devices and workers.

Zebra-validated cabinets and customized carts are designed and developed with over 15 years of experience to help ensure your assets and workflows function in tandem at high performance and optimal security.

Consolidate and Connect to Maximize Performance

With Zebra Intelligent Cabinets, you can maximize the long-term performance and lifecycle of each device through effective management, making every device ready for optimum use during every shift without interrupting operations.

Helping to accelerate business in warehouse, transportation & logistics, and retail operations, Zebra Intelligent Cabinets consolidates your Zebra devices and connects them for:

- Battery charging
- Faster access and storage
- Software updates
- And more...
- Health checks

Offers

- Cabinets
- Customized carts

ROI

- Device loss prevention: security
- Damage reduction: user accountability
- Workforce efficiency: rapid secure access
- Increased productivity: ready for use

Automate Workflows with Software-Driven Management

Zebra Intelligent Cabinets allows you to accelerate workers' access to devices at the start/end of shifts, avoid manual distribution and documentation of devices, and use software-driven device management to track device location and battery health. Save critical workforce time and operational costs, as well as:

- Automate workflows
- Minimize worker hours
- Increase productivity and efficiencies
- Free up your workforce to focus more on your operations
- Reduce human error and allocate devices to users more accurately

Protect Devices with Authorized-Only Security

With secure, authorized-only device storage, Zebra Intelligent Cabinets enables controlled issuing of devices and device traceability, so your operations can:

- Reduce device loss
- Create greater worker accountability
- Prevent device abuse and damages
- Minimize repairs and replacements
- Reduce device quantities and cost

Access a Wider Range of Services

Zebra Professional Services offers a range of services end-to-end for Zebra Intelligent Cabinets, from initial concepts to smooth deployment, successful adoption and effective operations. Support Services provide the right coverage of your devices beyond wear and tear. And to complete your comprehensive support, VisibilityIQ™ offers a single pane-of-glass of device performance.

- Zebra Signature Services provides learning services, program management and deployment services to ensure your solution is properly tailored to your needs
- Zebra OneCare offers ongoing technical support to give you the assurance of Zebra's global experience and support

Ideal Applications

Warehouse

- Storage and stocking area
- Reverse logistics
- Picking and packing
- Inventory management

Retail

- E-commerce
- Distribution centers
- Back of store

Transportation & Logistics

- Postal and courier
- Device fleet management

Why Zebra

We recognize that for businesses to compete they must become as smart and connected as the world we live in. While other providers focus on their own products, we focus on your business priorities. Zebra Intelligent Cabinets is just one example of how we do this by creating solutions that lead to rapid ROI from the faster adoption of new edge-data solutions.
