

Reflexis Real-Time Task Manager

Accelerate Task Execution, Elevate Operations

Empower your teams with the intelligent task management solution that streamlines execution and simplifies work so they can do more, easily.

Automatically push the right assignment to the right associate, aligning skills, availability and preference to keep your teams efficient and happy at work.

Meet the expectations of your workforce with an intuitive UI that simplifies navigation for faster work in fewer clicks.

Enable Intelligent Task Management Processes

Prioritize the most impactful corporate-generated and real-time system-generated tasks

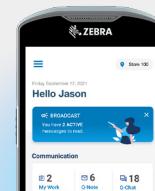

Optimize workflows to intelligently direct tasks evenly and equitably across available associates

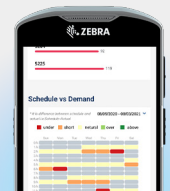

Improve field management's line-of-sight into store-level execution, giving them the ability to manage by exception

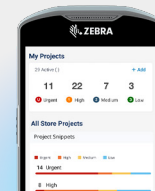

Give the next generation of associates the user experience they need to streamline communication and execute tasks quickly and efficiently.

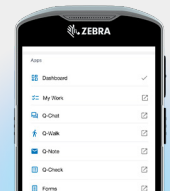

Rich personalization

A single, centralized platform

Mobile-first design

Real-time visibility

Simplify Work for On-site Associates

Provide managers and associates with a single, mobile-first view of tasks, alerts, and other critical information

Streamline communication to on-site associates with a single, centralized platform for accessing all work

Ensure managers and associates are always in the right place at the right time, working on the right task to maximize customer engagement

Send on-site associates alerts with actionable steps to address unplanned issues in the moment

Real-Time Task Manager

Task Management for Today's Workforce:

Gen Z and millennials will make up 74% of the workforce by 2030

Source: Forrester

Almost 50% of digital natives are likely to quit if their employer's technology frustrates them
