

# Simplify Store Execution with Real-Time Insights

Reflexis Real-Time Task Manager is an intelligent, mobile-first task management solution that streamlines on-site execution and communication — giving frontline employees a real-time, prioritized view of all work they need to accomplish in the store.

- Provide corporate with a clear line of sight into store execution
- Simplify work for frontline employees with a single location to view all pending tasks
- Foster efficient employees and create an excellent customer experience

## Create the Store of the Future with Real-Time Task Management

- 1 Intelligently Direct Tasks to On-Site Associates**  
Optimize workflow using factors such as staffing level, in-store workload, and customer traffic to distribute tasks evenly across available employees
- 2 Prioritize the Most Impactful Tasks**  
By organizing tasks by priority level, frontline employees can ensure that high-priority tasks are always completed in a timely manner
- 3 Coordinate Activities in Real Time**  
Easily forward or reassign tasks based on availability of skill set, ensuring that employees can efficiently manage their workload
- 4 Empower Frontline Employees with Real-Time Insights**  
Automatically send frontline employees alerts based on pre-set conditions, with actionable, best practice steps they can take to manage in-store tasks
- 5 Maximize Employee Efficiency**  
With real-time visibility into the tasks they have to complete, ensure your frontline employees are always in the right place at the right time, working on the right tasks
- 6 Foster More Powerful Customer Engagement**  
With the ability to access their work from anywhere in the store, your employees can work more efficiently and devote more time to customer engagement
