Transformation is Relentless
Keep pace with the true power of the cloud

Growth 17.6%
The 4Q18 global spending forecast for public cloud services in 2019 is $232.8 billion in constant U.S. dollars, with 17.6% growth over 2018.*

Software providers must adapt and build cloud solutions to keep customers and themselves thriving.

Every device in the supply chain gives us data. Harness it to streamline workflows, identify bottlenecks and create new opportunities.

Enterprises with top priorities like changing their business models or accelerating digital business are up to twice as likely to be investing in APIs.²

Zebra introduces Zebra Data Services, with cloud-based, unified APIs and developer tools.

22.3 million
Global developers³

62%
of surveyed developers state that externally exposed APIs are a high or critical priority to their organization.²

APIs are a key foundation for digital transformation. They drive optimized customer experiences, create integrated digital ecosystems across customers and partners, allow firms to benefit from the innovations of digital disruptors, drive operational excellence, and provide a foundation for platform business models.¹

Access through our self-service developer portal.

The enriched API layer enables innovation, design and quick deployment of secure, custom applications.

Empower Your Success with Zebra Data Services
Share the self-service Developer Portal with your developer team to leverage Zebra’s APIs today.
