Zebra OneCare™ Support Services

MAXIMIZE ZEBRA DEVICE PERFORMANCE, VALUE AND UPTIME WITH UNMATCHED PRODUCT EXPERTISE

Every day, you count on your Zebra devices to improve efficiency and task accuracy to better serve your customers — and reduce the cost of doing business. In order to maximize the value of your Zebra devices and their impact on your business, you need to maximize device availability. And with Zebra’s OneCare Support Services, it’s easy.

Regardless of your industry, the size of your business, the level of service you need, the type of Zebra devices you own or your budget, there is a Zebra Support Service that will meet your needs. We provide the most comprehensive service portfolio in the industry, offering technical and software support and updates, comprehensive repair services that cover accidental damage, your choice of repair turnaround times, Android security updates to protect your data every day your devices are in service and more. A wide variety of options allows you to choose a service plan that meets your support needs today, and evolves with your business to meet your support needs tomorrow. No matter where you are located in the world, we speak your language — we offer support in 17 languages. And since nobody knows our devices better than we do, no matter which service you choose, you get the unmatched expertise you need to maximize device performance and uptime.

When it comes to support for your Zebra devices, choose Zebra OneCare Support Services — because nobody does it better than Zebra experts.
Overview: Zebra OneCare™ Support Services

There is a Zebra OneCare Support Service option to meet every service need and budget:

**Zebra OneCare™ Essential**
- **Basic Assurance**
  This core service provides fully featured comprehensive coverage for your devices. You get the Zebra entitlements that set the bar for service and support — from coverage for accidental damage and normal wear and tear, standard repair turnaround times and live agent access to software upgrades, Android security updates, a Support Dashboard and more.

**Zebra OneCare™ Select**
- **Maximum Protection**
  When time is of the essence and you need to minimize downtime as much as possible, choose Zebra OneCare Select. This service includes everything in Zebra OneCare Essential, with increased service levels that deliver faster, more immediate issue resolution, including around-the-clock live agent access and a next business day replacement device that is ready to use, right out of the box.

**Zebra OneCare™ Premier**
- **Advanced Managed Services**
  When you need the highest level of service possible for your business-critical devices, Zebra OneCare Premier delivers. Choose the components you need from our Visibility and Support services to meet the needs of your business and your workforce. Key features include a dedicated around-the-clock support team to help resolve issues, the simplicity of a single point of contact, advanced features such as application migration, plus device management services that provide the business-critical visibility into the status of all your Zebra devices you need to achieve unsurpassed uptime and device value.

**Zebra OneCare™ SV**
- **Right-Priced Protection**
  When full-featured comprehensive service plans are more than you need, but warranty coverage is not enough, Zebra OneCare SV bridges the gap, offering the right level of coverage for the right price. You get twice the coverage period offered by the standard warranty for manufacturer defects, a 5-day turnaround time for a repair at a Zebra depot, 2 years of technical support instead of 90 days, access to software upgrades and LifeGuard Android security updates, a Support Dashboard, plus multiple options that allow you to add services such as Device Commissioning, Express Shipping and more. (Available for TC2X mobile computers and select printers.)

**Zebra OneCare™ On-Site Support**
- **Let Our Certified Service Technicians Come to You**
  With Zebra OneCare On-Site Support, we’ll dispatch a Zebra-trained and certified service technician to your facility with just one call. There are no extra costs. Everything is included: parts and labor, all travel (no additional mileage fees), application of any engineering changes, and a complete cleaning and adjustment on every trip. In addition, two preventative maintenance checkups are included every year your printers are under contract.

**Zebra OneCare™ Technical and Software Support (TSS)**
- **Extended Technical Support and OS Software Updates**
  You need the peace of mind that comes from knowing you can get the technical support you need, when you need it — but your warranty only provides technical support and software updates for 90 days. This cost-effective service lets you extend technical support, access to software upgrades and LifeGuard Android security updates for 1, 3 or 5 years, with the defined service levels and commitment to rapid resolution you need to keep your Zebra devices up, running and available to your workers.

Let Zebra Support Services help you get the most out of your Zebra devices. For more information, please visit www.zebra.com/zebraonecare
