

Give your old printers a well-deserved break

LONG-TERM WEAR AND TEAR MAY AFFECT HOW WELL LEGACY PRINTERS OPERATE, AND IN THE END THAT COULD END UP COSTING YOU.

68% of consumers think modern technology is critical to success³

50% of mobile printer users are not very satisfied or not satisfied at all with their current devices³

Device failures cause about **140 minutes** of lost productivity (including support time)¹

Put the speed back in your DSD operations with the Zebra ZQ500 Series

The most rugged mobile printers available = more up time

- Designed and tested to withstand drops from up to 6.6'
- Resistant to temp extremes, dust, & liquids
- Design meets military specifications for shock and vibration

The industry's best connectivity options = more efficient workflow

Connects to any mobile device operating system:

Can connect via multiple technologies:

More connectivity features:

- Monitor and control your printers from any PC or mobile device
- Connect directly and securely to the cloud
- Print using non-Zebra command languages

The easiest mobile printer to use = faster adoption rates

- Simplified User Interface
- Large buttons - for use even with gloves
- Easy to load media

To get trade-in incentives for upgrading your printers, contact your Zebra rep today.
