

# Government Printing Solutions

ENABLING AGENCIES TO MAXIMIZE ASSET INTELLIGENCE WITH PRINTERS

## The Challenge for State and Local Government

Government agencies are faced with the ongoing challenge of enhancing efficiencies, accuracy and personnel safety. This needs to be achieved in many forms — from asset/inventory management and identification/authentication access to eCitations, inspections, and code enforcement.

## Why Should Printers be Part of the Solution?

Zebra, along with its Channel Partners, offers integrated, high-performance printing solutions that give government agencies

smarter, more efficient ways to manage assets — from printing and tagging to tracking and locating.

- Reduce time spent on paperwork
- Make better decisions
- Support operations more effectively

Labels, tags and paper that government personnel print contains critical information. Using high quality supplies, materials and processes improves operational efficiency even more. Zebra supplies undergo stringent pre-testing to deliver optimal solutions that better track and manage people, events, incidents, processes, programs and work productivity.

## Do More and See More with Printed Intelligence

---

### E-CITATIONS

Zebra's mobile ticketing solution automates the citation process, not only resulting in citations being issued in minutes, but also eliminating costly human errors and paperwork.

### THE SELF-FUNDING BENEFITS OF ISSUING E-CITATIONS

E-citation is a high return-on-investment (ROI) solution that pays for itself by enabling law enforcement officers and local court systems to use digital technology to efficiently capture, transmit and process data.\*

E-citation can reduce citation processing from 12 days to seconds.\*

### HEALTH & HUMAN SERVICES

Field solutions such as ChildFirst, help Child Protective Services caseworkers file reports remotely in real or near-real time. Printed receipts provide confirmation of wellness checks, home visitations and acknowledgement of inspections and services performed.

### ASSET AND INVENTORY MANAGEMENT

The number of assets that government departments must track on any given day can be mind-boggling. But printers that offer diverse output for barcode and RFID labels, tags, wristbands, receipts and tickets make handling assets much more manageable.

### OPERATIONAL MAINTENANCE

When government service professionals know more about the assets and data that flow through operations, they make better, smarter decisions. From operations to emergency management, Zebra printers keep everyone more informed and more mobile.

### PUBLIC SAFETY

The demands of public safety require printer solutions that are rugged, weather and temperature resistant, and reliable. Zebra printing solutions are currently helping law enforcement, fire departments, emergency medical service teams and other public service organizations focus on their jobs instead of the paperwork.

Whether you're looking to improve productivity or efficiency across government properties, plants, public transit, roadways or utilities, Zebra has a smart solution to fit your needs.

### ONE SOURCE FOR DIVERSE GOVERNMENT NEEDS

Governments that work with Zebra benefit from one-stop shopping for printers and supplies that are easy to integrate, secure, reliable, accurate, lightweight, compact and durable.
