

2D Imaging for Manufacturing & Warehousing

MANUFACTURERS & WAREHOUSE OPERATORS ARE HEADED TOWARD GREATER PRODUCTIVITY WITH 2D IMAGING

WHY USE 2D IMAGERS IN MFG/WH

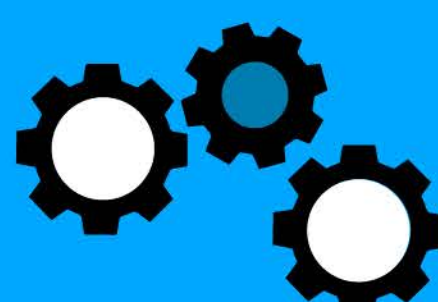

PICK & PACK

Simplifies picking, packing and shipping of items that use 1D & 2D codes

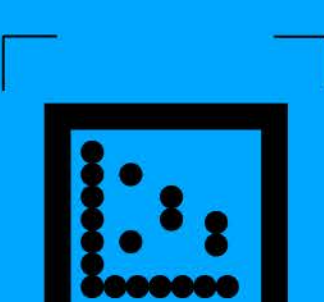

TRACK & TRACE

Facilitates track and trace

RUGGED BUILD

Industrial environments require a rugged form factor - DS3600 Series

PURPOSE-BUILT

Scan DPM & extreme density barcodes[^]

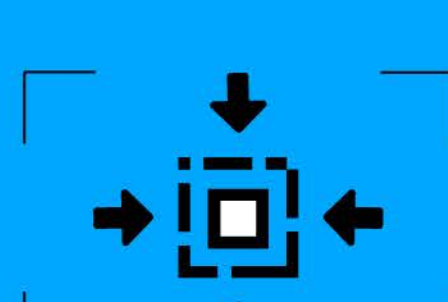

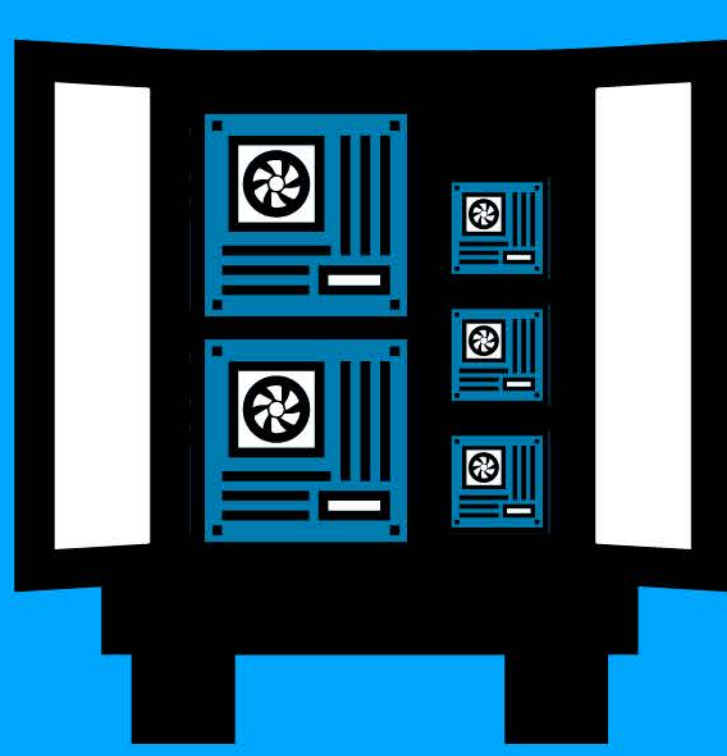

MORE PRODUCTIVE

Scan multiple barcodes at the same time

RELIABLE

Scan damaged, torn, badly printed barcodes

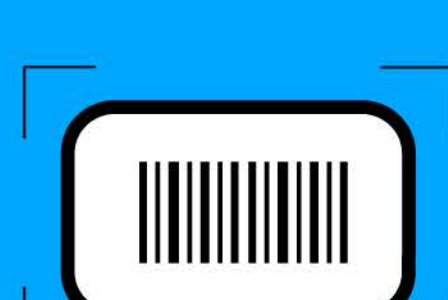

MORE INTUITIVE

Omni-directional scanning provides for faster scanning

*Offers enhanced range - Scans up to 21 metres

EFFECTIVE

* For 3600 ER models.

Our 2D MFG Portfolio

Boost productivity and quality control on the production line with our 2D imaging technology.

Ultra Rugged 3600 Series*

DS4608-XD[^]

DS457

Our MFG Edge

Zebra's 2D manufacturing & warehouse scanning solutions provide accurate information to increase productivity in industrial environments.

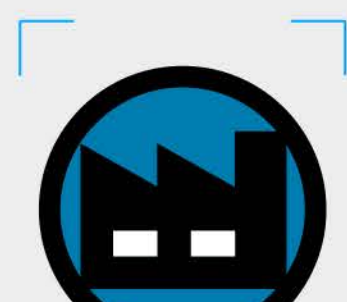

Reliable

Built to handle tough environments

Unbeatable Performance

Built for Manufacturing

Excellent scanner management tools

A model & variant for every need

DataCapture DNA

The genetic code that simplifies the entire Zebra scanning experience

123Scan makes scanning configuration and deployment easy for everyone

PowerPrecision+ Batteries preempt downtime with visibility into battery health

ScanSpeed Analytics identify and phase out poor performing barcodes to speed up checkout

PRZM Intelligent Imaging ensures instantaneous capture of the most problematic barcodes
