

## Associate Safety, Enablement and Onboarding

Store associates can be a retailer's strongest asset, especially in fast-paced operations with high customer demands. Enable your associates with the right technologies to better communicate, collaborate, and complete tasks efficiently. When you need to hire many new employees in a short amount of time, you can also leverage technology solutions to onboard associates faster, and continually train them for greater performance.

### Maximize Your Most Valuable Asset

Empower your associates and help them quickly and accurately access information from anywhere to add value to your customers' experience. Give your associates real-time, mobile access to inventory information, task management, instant communication and onboarding training.

#### Connect Associates for Better Communications

Connect front-of-store and back-of-store associates so they can communicate during shifts about inventory needs, quickly fulfill customer requests and collaborate for improved workflows. Mobile devices help ensure stores are properly staffed. They allow associates to view work schedules, request adjustments as needed, and problem solve with other associates to offer options for finding shifts or shift replacements.

#### Provide Actionable Data and Tools

Zebra solutions can give associates instant access to inventory databases for up-to-the-minute visibility. They can orchestrate associates to restock, notify them when goods are ready for shelving, speed shipment-to-shelf workflows, and communicate more effectively with customers.

#### Accelerate Onboarding and Training

Onboard and train new associates with simple training task assignments. As many retailers hire an influx of new employees during a customer surge, Zebra solutions can provide associates with basic "start your shift" tasks to help them get quickly acclimated and started on their work. As associates are onboarded, continually train them using operational and product-focused lessons that help them become proficient in their new roles.

## Solutions for Associate Enablement

Set up your associates for success with holistic mobile solutions.

### Handheld Mobile Computers and Tablets

Zebra mobile computers and tablets connect associates, facilitate onboarding, access store inventory and more. They offer an intuitive user-interface design, long-lasting battery life, secure voice and messaging, and interactive sensor technology.

### Workforce Connect

Leverage the same Zebra device that provides access to enterprise data and applications with a suite of communication and collaboration tools that enables Push to Talk and PBX calls as well as enterprise-class secure messaging.

### Handheld Scanners

Enable associates to quickly scan product barcodes for inventory management. Quickly and accurately capture any barcode, even if they are damaged, torn or poorly printed.

### Mobile Printers

Printing multiple media types and sizes, Zebra's user-friendly mobile printers help associates to print receipts on the go and print labels on the spot to price merchandise as items are unpacked.

### Sanitize for Safety

Zebra's "Sanitize for Safety" resources include links to best practices for sanitizing devices shared by associates to help increase safety.

Keep associates connected, easily onboarded and safe.
