

Learn How to Search and View a Repair Order

Searching & Viewing a Repair Order

Once a repair order has been submitted, progress can be tracked on the repair order portal. Users can conduct a search to locate a repair order or series of repair orders. From the **Order Status** tab, a user can perform the following actions:

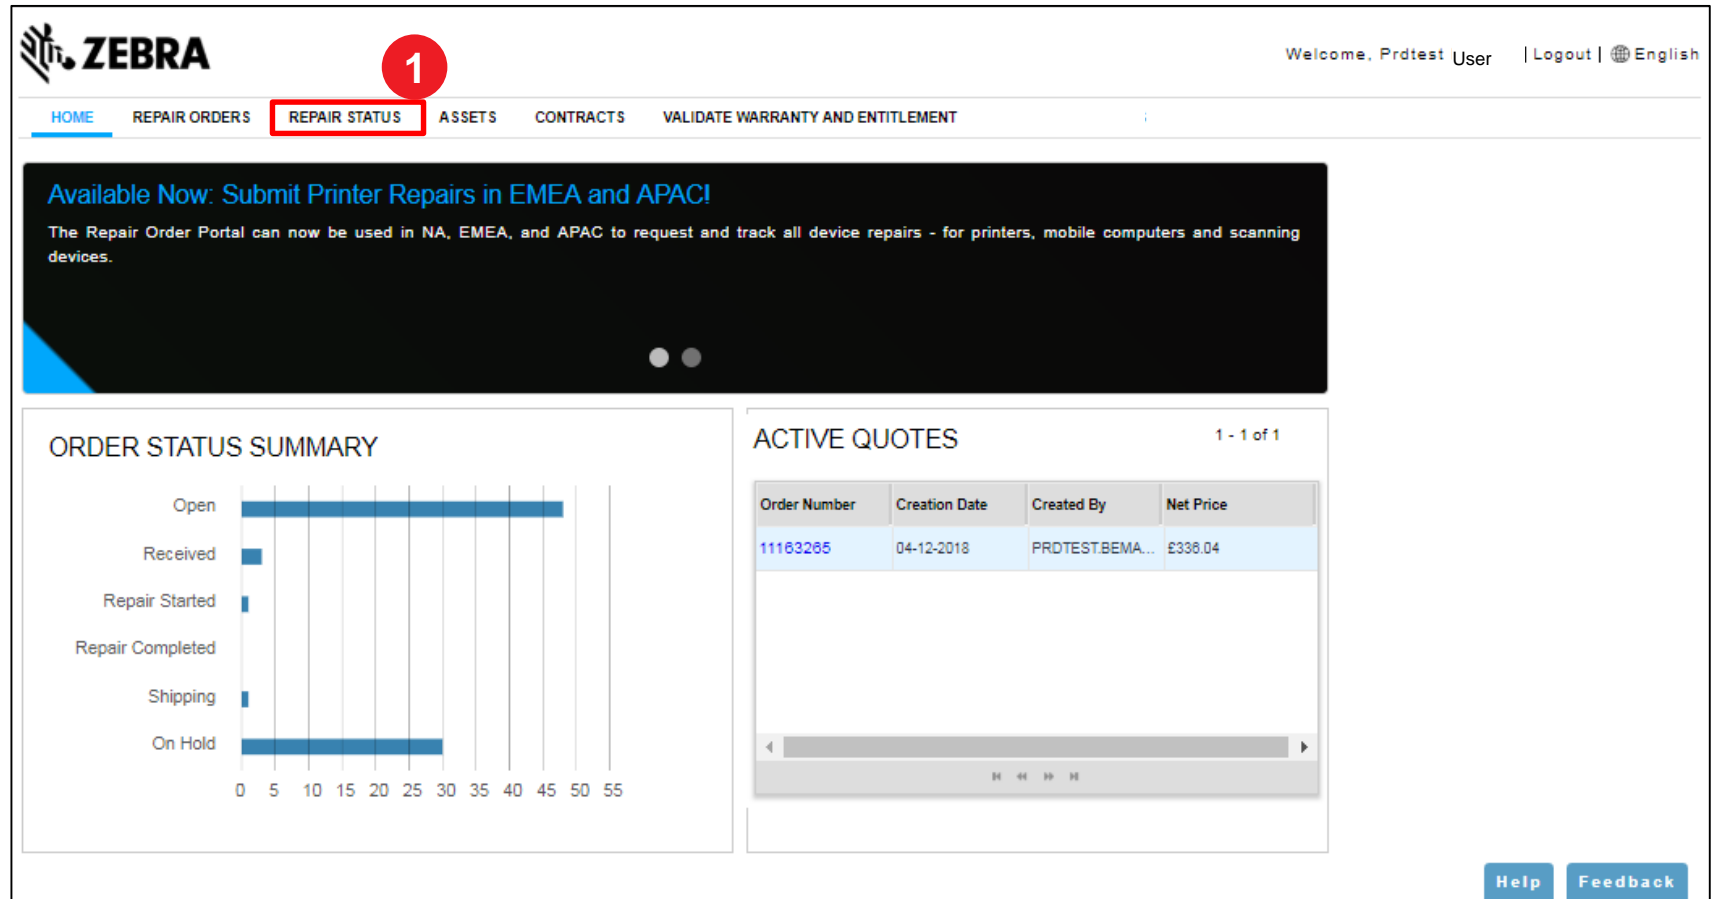

- **Search:** Users can execute a search utilizing a variety of search criteria. Repair orders matching the search criteria display for the user to view
- **View:** Once the repair order is located, users can view information such as status and return shipment information
- **Export for Reporting:** After executing a search, users can export the repair order information. The data can be exported into a csv

The following information outlines how to search for a repair order to view the repair order details and export data for a report

Initiating a Search

Once the repair order has been submitted, users can access the repair order and view details such as status, serial number, return tracking number, and outbound serial number. The following steps outline the process to search for a submitted repair order to view repair status information

Step 1: Access the *Repair Status* tab

The screenshot shows the ZEBRA Repair Order Portal interface. The ZEBRA logo is in the top left. The top right shows the user 'Prdtest User' and options for 'Logout' and 'English'. The navigation menu includes 'HOME', 'REPAIR ORDERS', 'REPAIR STATUS' (highlighted with a red box and a red circle with the number 1), 'ASSETS', 'CONTRACTS', and 'VALIDATE WARRANTY AND ENTITLEMENT'. Below the navigation is a banner for 'Available Now: Submit Printer Repairs in EMEA and APAC!'. The main content area is divided into two sections: 'ORDER STATUS SUMMARY' and 'ACTIVE QUOTES'. The 'ORDER STATUS SUMMARY' section contains a horizontal bar chart showing the number of orders in various stages: Open (45), Received (5), Repair Started (5), Repair Completed (0), Shipping (5), and On Hold (30). The 'ACTIVE QUOTES' section shows a table with one quote: Order Number 11163265, Creation Date 04-12-2018, Created By PRDTEST.BEMA..., and Net Price £338.04. At the bottom right, there are 'Help' and 'Feedback' buttons.

ORDER STATUS SUMMARY

Status	Count
Open	45
Received	5
Repair Started	5
Repair Completed	0
Shipping	5
On Hold	30

ACTIVE QUOTES 1 - 1 of 1

Order Number	Creation Date	Created By	Net Price
11163265	04-12-2018	PRDTEST.BEMA...	£338.04

Initiating a Search

The **Search Order** screen displays, presenting a list of search criteria to locate a repair order or series of repair orders:

- **Order Number:** Search by repair order number or accessory order number (*if applicable*)
- **Customer Ref #:** Search by text value documented on the repair order or accessory order (*if applicable*)
- **Purchase Order #:** Search by text value documented on the repair order
- **Serial Number:** Search by serial number associated with the repair order
- **Store Number:** Search by store number associated with the return shipping address
- **Ship Address Postal Code:** Search by postal code associated with the return shipping address
- **Bill Address Postal Code:** Search by postal code associated with the billing address

The screenshot shows the ZEBRA Repair Order Portal interface. The top navigation bar includes 'HOME', 'REPAIR ORDERS', 'REPAIR STATUS' (highlighted with a red box), 'ASSETS', 'CONTRACTS', and 'VALIDATE WARRANTY AND ENTITLEMENT'. The user is logged in as 'prctest 4242018' and the language is set to 'English'. The main content area is titled 'REPAIR ORDER STATUS AND HISTORY' and features a search form. The search form includes a 'SEARCH ORDER' dropdown menu (set to 'Please Select'), a 'Search Using' dropdown menu (set to 'Please Select'), and a text input field for search criteria. Below the search form are checkboxes for 'STATUS' (Submitted, Cancelled, Pending Quote, On Hold, Closed) and 'ORDER DATE' (From and To). The search form is highlighted with a red box. To the right of the search form is a table with columns: 'Order Number', 'Order Type', 'Job Type', 'Exchange Type', 'Order Date', 'Created By', 'Account #', 'Account Name', and 'Cc'. The table currently displays 'No Records'. There are 'EXPORT' and 'COLUMNS DISPLAYED' buttons above the table. The bottom of the page has a pagination control.

Initiating a Search

The **Search Order** screen displays, presenting a list of search criteria to locate a repair order or series of repair orders:

- **Status:** Select from 5 options: Submitted, Cancelled, Pending Quote, On Hold or Closed
- **Order Date:** Select the time period, maximum allowed is 90 days

NOTE: If you click on **SUBMIT** without filling out the search filters, orders created within the past 30 days will display.

The screenshot shows the ZEBRA Repair Order Portal interface. The top navigation bar includes 'HOME', 'REPAIR ORDERS', 'REPAIR STATUS' (highlighted in red), 'ASSETS', 'CONTRACTS', and 'VALIDATE WARRANTY AND ENTITLEMENT'. The user is logged in as 'prctest 4242018' and the language is set to 'English'. The main content area is titled 'REPAIR ORDER STATUS AND HISTORY' and shows 'No Records'. The search filters section is highlighted in red and includes:

- SEARCH ORDER:** A dropdown menu with 'Please Select' and options: Order Number, Customer Reference Number, Purchase Order Number, Serial Number, Store Number, Ship Address Postal Code, and Bill Address Postal Code.
- Search Using:** A text input field.
- Enter multiple values line. For instance:** A text input field with the example '123456,234567' and '34566777,1367123'.
- STATUS:** A list of checkboxes for Submitted, Cancelled, Pending Quote, On Hold, and Closed.
- ORDER DATE:** Two date input fields labeled 'From' and 'To'.
- Buttons:** 'SUBMIT' and 'RESET' buttons.

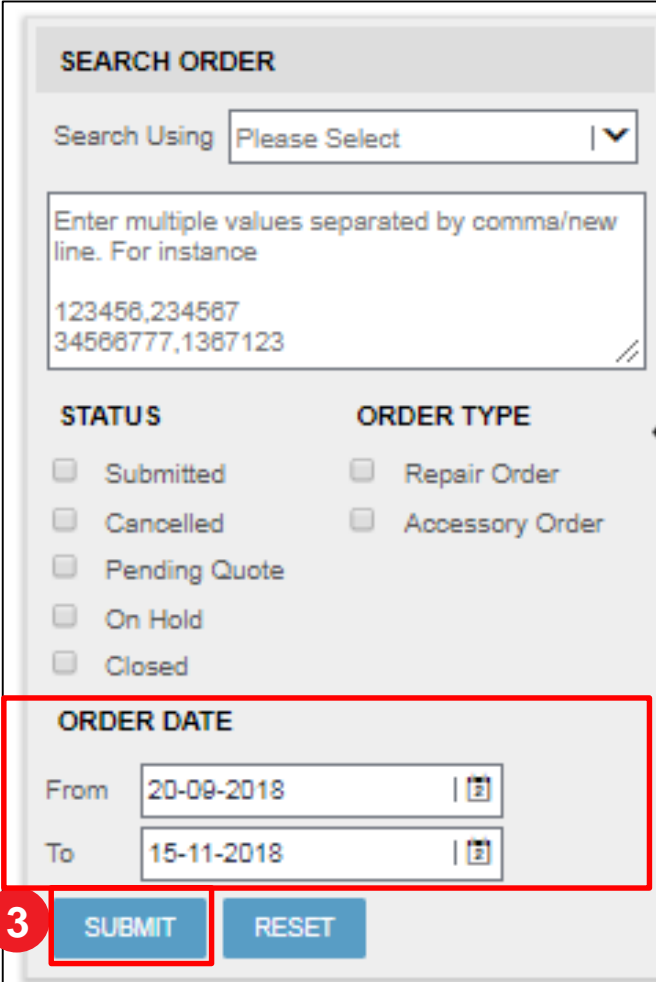

The table below the search filters is empty and has the following columns: Order Number, Order Type, Job Type, Exchange Type, Order Date, Created By, Account #, Account Name, and Cc.

Initiating a Search

Step 2: Type or select search criteria

Step 3: Click on 

NOTE: If a user clicks on  without applying search criteria, repair orders and accessory orders (if applicable) submitted within the last calendar month display

SEARCH ORDER

Search Using Please Select | v

Enter multiple values separated by comma/new line. For instance
123456,234567
34566777,1367123

STATUS	ORDER TYPE
<input type="checkbox"/> Submitted	<input type="checkbox"/> Repair Order
<input type="checkbox"/> Cancelled	<input type="checkbox"/> Accessory Order

The Line Item Status field displays the repair status of the specific device

The Received Date and Inbound Tracking # fields display information about the received unit

Viewing Repair Line Status Information

The **Line Item Status** field displays critical information about the progress of the repair. The following status values display in the **Line Item Status** field:

- **Pending:** Repair order has been submitted. This status displays when: Zebra's repair order system has not confirmed the order, the Help Desk is addressing an issue with the repair line, or there is action required from the customer
- **Open:** The repair order has been confirmed and the Repair Center has acknowledged the repair order. This status also displays when the Help Desk has addressed the issue with the repair line (*if applicable*)
- **Received:** Repair Center has received the faulty unit and acknowledged the receipt
- **Repair Started:** Repair Center has initiated the repair process
- **Repair Completed:** Repair Center completed the repair process
- **Shipping:** Repair Center shipped the device back to the customer
- **RMA Closed:** Shipping is complete and billable repairs have been invoiced (*if applicable*)
- **Cancelled:** Repair line has been cancelled

Serial #	Line #	Product▲	Line Item Status
SERIAL # UNKN...	1	MC9190-G30SW...	Open

Viewing Repair Line Sub Status Information

The **Line Sub Status** field provides additional status information about the repair. A value of On Hold displays if the repair can not proceed. A repair may be on hold various reasons. Common reasons include:

- The **parts for the repair** of the faulty unit are not available. The repair remains on hold until the parts are available to complete the repair. Please review the Part Due Date field for the date when Zebra expects to receive the parts required to complete the repair of your device.

Line Items		1 - 5 of 5								
Line #▲▼	Serial #	Line Item Status	Line Sub Status	Parts Due Date	Customer Reference	Product	Outbound Serial #	Job Type	Exchange Type	Net Price
○ 1	A219H0028623	Open				WA3S2100000045...		Contract		€0.00
○ 2	SERIAL # UNKNO...	Open	On Hold			WA3S2100000045...		Billable		
○ 3	1124400502387	Open	On Hold	25-12-2018 00:00:00		MC9190-G90SWG...		Contract		€0.00

Viewing Repair Line Sub Status Information (Continued)

Additional reasons why a repair line may be on hold include:

- The **per incident repair quote** is pending review. The quote can either be accepted or declined. If accepted, payment information is required. Once provided, the hold is removed and the repair progresses. If declined, the repair line is cancelled
 - A billable repair quote may apply to faulty units that are entitled for repair, however the Repair Center found damage not covered under by warranty or service contract. A hold is applied to the repair line until the customer confirms payment for the per incident repair
- **Entitlement information was disputed.** If the entitlement status is not accurate and the billable job type is disputed, the repair line remains on hold until the appropriate Zebra team can review the entitlement status (warranty or contract)
- The device was flagged as a **repeat repair**, using the dispute process. The repair line will be on hold until the appropriate Zebra team can review the repeat repair status and determine how to proceed

Contact the Repair Help Desk to determine why the repair line is on hold

Line Items		1 - 5 of 5	
Line #▲▼	Serial #	Line Item Status	Line Sub Status
○ 2	10276521101330	Shipping	
○ 3	8271521101400	Shipping	
○ 4	10239521100324	Shipping	
○ 5	10276521100986	Shipping	
○ 1	10037521102680	Repair Started	On Hold

Viewing the Outbound Serial Number

The **Outbound Serial #** field displays the serial number of the unit shipping back to the customer. The following information is important to note about the outbound serial number:

If the values listed in the Serial # and Outbound Serial # fields are the same, the faulty unit was repaired and returned

Line Items 1 - 4 of 4

Line #▲	Serial #	Job Type	Outbound Serial #	Line Item Status
o 1	16357523020624	Contract	16357523020624	RMA Closed
o 2	16028523020774	Contract	16089523023461	RMA Closed
o 3	16357523023797	Contract		
o 4	12045521120425	Contract		

If the values listed in the Serial # and Outbound Serial # field are different, a replacement unit may have been sent in advance of the repair of the faulty device, if entitled by the Zebra OneCare Select Contract

Line Items 1 - 2 of 2

Line #▲	Serial #	Job Type	Outbound Serial #	Line Item Status	Received Date	Outbound Tracking #
o 1	14326523021886	Contract	11125521120161	Shipping		GE382702669WW
o 2	14334523020117	Contract	14007523020022	Shipping		GE382702669WW

Checking the Status of a Repair

To check the status of a repair, review the following information to determine the status:

Line Item Status: [repair complete](#), [shipped](#), or [RMA Closed](#)

Review the Outbound Tracking field for the tracking number of the return shipment

For this scenario, the order status may reflect submitted or closed, depending on the status of the individual repair lines

Line Items 1 - 2 of 2						
Line #▲▼	Serial #	Product	Repair Center	Job Type	Line Item Status	Outbound Tracking #
1	10082520801034	MC7596-PZCSUR...	El Paso Service C...	Billable	RMA Closed	
2	13267010501201	DS4208-DL00007...	El Paso Service C...	Warranty	RMA Closed	23423423432434

Line Item Status: [pending](#)

Review the Line Sub Status field to determine if the repair line is on hold

Order Number	Order Type	Order Date	Contact	Created By	Order Status	Line Item Status	Line SubStatus
21556552	RMA Repair Return	01-12-2017	NALA T03	NALA.T03@MAILI...	Submitted	Pending	
21556552	RMA Repair Return	01-12-2017	NALA T03	NALA.T03@MAILI...	Submitted	Pending	On Hold

- If the Line Sub Status is on hold and parts due date field is empty, contact the Repair Help Desk for additional information about the hold
- Additionally, contact the Repair Help Desk, if the line item status is pending and the line sub status is blank

Checking the Status of a Repair

Line Item Status: [open](#)

Determine when the faulty device(s) was sent to the Repair Center. A status of open indicates that the faulty device has not been received at the repair center

Line Items		1 - 1 of 1			
Line #▲▼	Serial #	Product	Repair Center	Job Type	Line Item Status
1	14327523020993	WT41N0-T2S27ER	El Paso Service C...	Contract	Open

Line Item Status: [repair started](#)

- For contract repairs, consult the Zebra OneCare information for applicable repair turnaround time information
- For warranty repairs, consult the product warranty information for applicable repair turnaround time information

5	1026500511795	MT2090-SL0D621...	Zebra South Florid...	Billable	Repair Started
6	1021800519828	MT2090-SL0D621...	Zebra South Florid...	Billable	Repair Started

Checking the Status of a Repair

Line Item Status: [cancelled](#)

A status of cancelled has a number of potential root causes:

- The quote for the per incident (billable, time and material) repair charges were declined
- The faulty device was not received at the repair center within 30 days

If additional information is required, contact the Repair Help Desk

Line Items		1 - 1 of 1					
Line #▲▼	Customer Reference	Serial #	Product	Job Type	Exchange Type	Sparepool Name	Line Item Status
1		SERIAL # UNKNO...	MC9590-KC0DAE...	Billable			Cancelled

NOTE: If a portal user cancelled a saved, un-submitted repair order the line item status reflects [RMA Cancelled](#)

Exporting Search Results for Reporting

Once repair order data is located, users can export the search results into a editable file for reporting. The following steps outline the process to export repair order search results

Step 1: Conduct a search for a repair order or series of repair orders

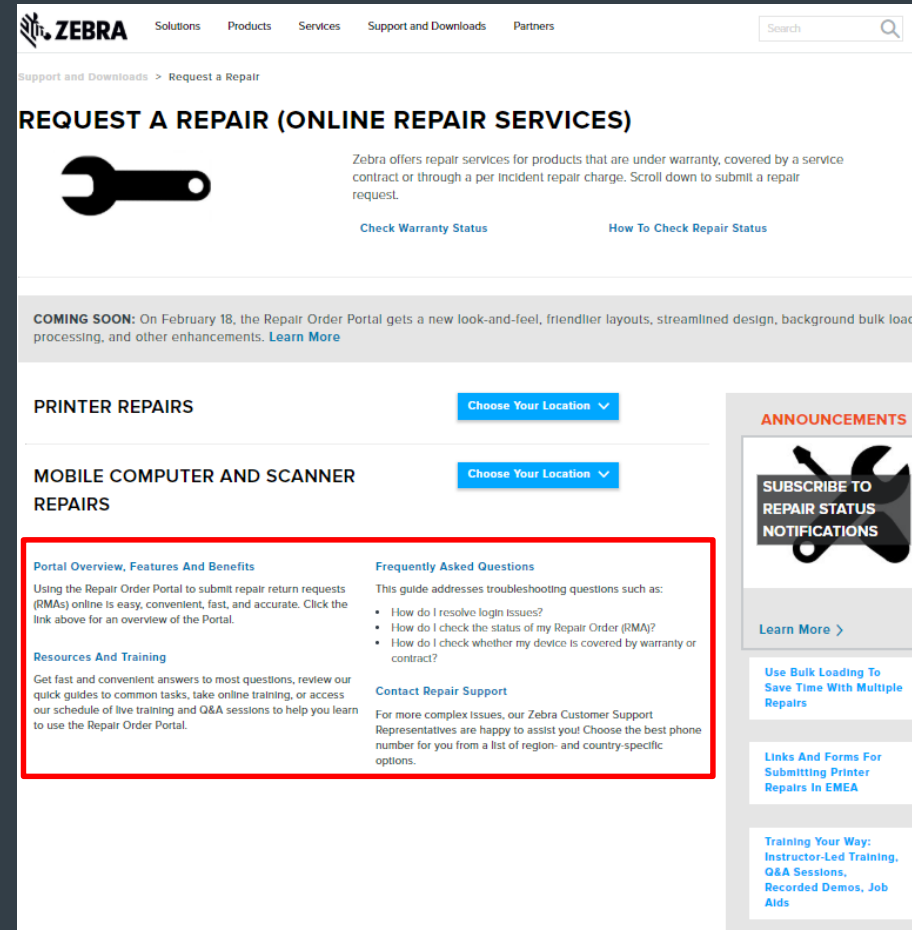

Step 2: Click on **EXPORT**. A **csv file** extension is generated. The entire row displays in one column with the data separated by a comma

The screenshot shows the 'REPAIR STATUS' section of the ZEBRA Repair Order Portal. On the left, there is a 'SEARCH ORDER' panel with a 'Search Using' dropdown (marked with a red circle '1') and a text input field containing '123456,234567' and '34566777,1367123'. Below this are filter sections for 'STATUS' (Submitted, Cancelled, Pending Quote, On Hold, Closed) and 'ORDER TYPE' (Repair Order, Accessory Order). At the bottom of the search panel are 'SUBMIT' and 'RESET' buttons. On the right, a table titled 'REPAIR ORDER STATUS AND HISTORY' displays search results. An 'EXPORT' button (marked with a red circle '2') is located above the table. The table has columns: Order Number, Order Type, Job Type, Exchange Type, Order Date, Created By, Account #, and Account Name. It contains four rows of data.

Order Number	Order Type	Job Type	Exchange Type	Order Date	Created By	Account #	Account Name

Need help?

Access [Zebra.com](https://zebra.com) > [Support & Downloads](#) for additional information and support

The screenshot shows the Zebra Repair Order Portal website. The header includes the Zebra logo and navigation links: Solutions, Products, Services, Support and Downloads, and Partners. A search bar is located in the top right corner. The main content area is titled "REQUEST A REPAIR (ONLINE REPAIR SERVICES)" and features a wrench icon. Below the title, there is a paragraph explaining that Zebra offers repair services for products under warranty, covered by a service contract or through a per incident repair charge. Two links are provided: "Check Warranty Status" and "How To Check Repair Status". A "COMING SOON" announcement is displayed, stating that the portal will have a new look-and-feel, friendlier layouts, streamlined design, background bulk load processing, and other enhancements, with a "Learn More" link. The page is divided into sections for "PRINTER REPAIRS" and "MOBILE COMPUTER AND SCANNER REPAIRS", each with a "Choose Your Location" dropdown menu. A red box highlights a section containing "Portal Overview, Features And Benefits", "Resources And Training", "Frequently Asked Questions", and "Contact Repair Support". The "Portal Overview" section describes the ease of submitting repair return requests (RMAs) online. The "Resources And Training" section offers quick guides, online training, and live training/Q&A sessions. The "Frequently Asked Questions" section lists three common questions: how to resolve login issues, how to check the status of a repair order (RMA), and how to check warranty coverage. The "Contact Repair Support" section provides information on how to reach Zebra Customer Support representatives for more complex issues. On the right side, there is an "ANNOUNCEMENTS" section with a "SUBSCRIBE TO REPAIR STATUS NOTIFICATIONS" button and a "Learn More" link. Below this, there are links for "Use Bulk Loading To Save Time With Multiple Repairs", "Links And Forms For Submitting Printer Repairs In EMEA", and "Training Your Way: Instructor-Led Training, Q&A Sessions, Recorded Demos, Job Aids".
