# VH10 PTT EXPRESS CLIENT VERSION 1.2.9 RELEASE NOTES

## INTRODUCTION

PTT Express client creates Push-To-Talk communication capability between different types of devices including PTT Smartphones, and Mobile Computers. Leveraging existing WLAN infrastructure, this solution delivers simple communications across devices without the need for a voice communication server.

## DESCRIPTION

1. Following issues have been fixed:

    1. PTT settings when pushed via Airwatch is not taking effect.

    2. Group Call onscreen key is displayed at left corner when Private call is disabled.

    3. PTT settings pushed via MSP is not taking effect.

    4.Keys of GC/PC when reassigned to other operations, not working.

    5.Not able to make a group call from home channel after changing channel from alternative.

    6. Not able to Make a GC After changing the channel manually via GUI.

    7. Error uninstalling PTT Express.
