

AIRBEAM OSUPDATE PACKAGE BUILDER RELEASE NOTES, VERSION 1.54

DESCRIPTION

The OSUPDATE Package Builder is a WIN32 utility that can significantly simplify the development of AirBEAM OSUPDATE packages. The OSUPDATE Package Builder includes basic AirBEAM Package Builder functionality so that the AirBEAM Package Builder is not required.

Refer to the OSUPDATE Package Builder Product Reference Guide for more detailed information on using the OSUPDATE Package Builder. The OSUPDATE Package Builder Product Reference Guide is installed as part of the OSUPDATE Package Builder installation process.
