# WT41X0 CE7 OS - CLEANER VERSION 1.0 RELEASE NOTES

## INTRODUCTION

As a cleanup activity, this package does a cold boot of the WT41X0 terminal which is running with Windows Embedded Compact 7 (CE7) operating system. After cold boot, terminal is put into default factory settings.

## DESCRIPTION

1.    File "WT41X0c70xxxCB00001.zip" contains an OSUpdate utility package which will help to clean up \Platform partition of the terminal.

2.     File "WT41X0c70xxxDBA00001.zip" contains an OSUpdate utility package which will help to clean up both \Platform and \Application partitions. In \Application partition, it will erase all existing applications.

NOTE: This cleaner package is applicable for all three versions of WT41X0 (Touch, Non-Touch and VOW).

## CONTENTS

WT41X0c70xxxCB00001.zip – cleans only \Platform partition

WT41X0c70xxxDBA00001.zip – cleans both \Platform and \Application partitions
